

Letter to SAC, New York

also issued that those offices not successful in acquiring the requested data were to submit any revisions or redirection of formerly adopted plans to eventually obtain this information.

Your reply of January 12, 1956, stated that identification of all CP members in the area covered by the New York Office had not been effected; however, your extensive knowledge of membership figures for the New York area as well as the entire country was noted. You also indicated that the previous plans set out in referenced letter of November 9, 1955, provided the most logical source for securing membership figures and identification of CP members in the New York area. Subsequent letters submitted by your office in conjunction with your intensification program concerning development of security informants reflects a realistic application of the integrated investigative system to security investigations.

It would appear from the administrative report of June 30, 1956, that your office is holding strongly against any increase in delinquency of subversive-type investigations. Since the beginning of the year your delinquency in 65, 100, and 105 classifications has fluctuated between 11 per cent and 15 per cent. As of June 30, 1956, it was 11.4 per cent. These figures, while of noteworthy significance, do not reflect the actual lag and ineffectiveness of your present program to identify members of the CP.

It is also evident that unless a specific goal is set this situation could continue for an unreasonable length of time. The Bureau desires, therefore, that you set a goal of 12 months beginning September 1, 1956, in which to identify all CP members in your territory. In this regard your progress reports submitted in accordance with instructions contained in Bureau letter of June 27, 1956, captioned as above, will be closely followed.

Your approach to this program for the identification of membership must be realistic and the personnel of your office must enter into the spirit of the program wholeheartedly to

Letter to SAC, New York

give it impetus. Any administrative or investigative problems inherent in the implementation of the program should be resolved at the outset on a local level or if necessary presented to the Bureau for consideration. It is obvious that with over half of the communist population of the United States in your territory your coverage of the CP is but a sham when you are able to identify only a small percentage of the members in your division.

Although you have been successful in developing the total number of members, you have not, since last October when the membership program was initiated, identified any substantial number of the membership represented by the individuals, thus giving life to these numbers. The primary lesson we learned from the CP underground program was the need for comprehensive informant coverage on all levels of the CP. In order to give practical application to an informant program you must be able to identify the enemy so that they can be adequately covered. At the same time, each additional Party member identified presents another opportunity for potential informant development.

From the foregoing it is apparent that your present membership program will require drastic revisions in order to comply with Bureau instructions. In this regard, you should advise the Bureau by August 5, 1956, of the plans to be effected by your office to realistically comply with this accelerated membership program and at the same time set forth the approximate number of CP members that will have to be identified. Your approach to this problem must be positive and your plans must reflect a clarity of purpose and a direct and aggressive attack against this untenable condition. You must personally lend your enthusiasm and leadership to this project to insure its success. The effective implementation of this program will result in fulfillment of the Bureau's responsibilities in safeguarding the internal security of the country and at the same time realize a more uniform administration for future operations.

"Daily Worker" ("DW") of 5/24/56, reported CP had contracted for space in "The Worker" and in "Political Affairs" for "Party Discussion" then underway, and printed statement of National Discussion Committee to effect that convention is to be held about December, 1956; Discussion was said to have as its purpose overcoming isolation of Party and strengthening mass work. CP on 5/31/56, sought reopening of proceedings before SACB, claiming developments since order of 4/20/53, to register under Mc Carran Act had refuted findings of that body. On 4/17/56, informant furnished circular of National Organizational Commission advising that as of January 1, 1956, the national office would return improperly prepared transfers of members, districts being instructed to prepare own systems and setting out clear political characterization of activity of transferee, and clear explanation of means of recognition, responsibility of resolving any doubts to be on district of origin. Income of CP for first quarter of 1956 disclosed as \$32,448.06. with expenditures of \$30,825.09. [redacted] Referral/Consult

[redacted] National Board at 4/8,9/56 meeting, decided that security measures must be kept in mind at all times and generally tightened

up: IRVING HERMAN, Head of National Review Commission, has prepared memo "Combating the Informer Evil," which has been sent to all district organizers with view to promoting mass struggle for Bill of Rights and constitutional liberties and need for vigilance against planting of informers in CP ranks: WILLIAM Z. FOSTER, National Chairman, reported on 4/28/56, to have mentioned that worst error of National Board was putting Party underground, thereby costing Party 1/3 of membership as determined by a recent registration: OTTO KUUSINEN, member, Central Committee, CPSU, reported to have declared to group of Western delegates to 20th Congress, CPSU, that KHRUSHCHEV had stated that in countries where capitalism is strong, transition to Socialism would cause class conflict and that that description fitted US. KUUSINEN welcomed efforts of CP, USA, to gain legality but warned against putting everyone into public activity. Informant describes situation in CP today as worse than that prevailing during EARL BROWDER crisis, with leadership from top to bottom under attack. Fight for power said to be in progress between advocates of united front tactics and peaceful transition to Socialism, as opposed to left sectarian group. Same informant states opinion of Party leaders is that EUGENE DENNIS, General Secretary, has been weak in current crisis and his hesitation caused harm and chaos. National Board meeting of 6/7,8/56, considered statement to be made on KHRUSHCHEV report on STALIN, to be released in name of Board or in name of DENNIS. A statement by DENNIS appeared in "DW" on 6/18/56, noting questions concerning responsibility of Soviet leadership for evils admitted, "Pravda" in Moscow reprinting version of his statement. National Committee meeting of

6/22-24/56, adopted statement for release to press on KHRUSHCHEV report on STALIN, stating crimes committed under STALIN's leadership were alien to Socialism and admitting shock at their revelation, that CPSU leadership must determine why such perversions continued for twenty years, that CP, USA, was disturbed by revelation of action against Jewish cultural organs and execution of Jewish leaders, explanation by Soviet leaders being required. Admission made that CP, USA, justified many policies of USSR now shown as wrong. "DW" of 4/19/56, in editorial on dissolution of Cominform, stated that that re-affirms "old truth" that working people will take their own path to Socialism - "a common blueprint for Socialism was always alien to Marxism. "DW" of 4/19/56, in editorial claimed as good news for friends of Israel and Arab the proposal of the USSR for prevention of war through machinery of UN, a proposal said to be more realistic than 1950 declaration of Western powers. CLAUDE LIGHTFOOT, Illinois-Indiana CP District Organizer, reporting to National Committee on 4/30/56, on "Review of Electoral Policies and Tasks for 1956" noted issues of 1956 election as struggle of Negro people, agricultural crisis, economic problems of workers, demand for cleaning out Mc Carthyism and restoring freedom of thought and opinion and changes in international scene posing necessity for basic changes in American foreign policy. At same meeting ALBERT E. BLUMBERG, National Legislative Director, urged that Democratic Party be subjected to pressure in effort to have civil rights legislation sent to House and also necessity of raising question of tax cut by \$1,000 exemption for dependents and reducing military expenditures. Meeting of National Civil Liberties Commission

held week of 5/14/56, it being stated there CP was working on legislation to be introduced to repeal Smith Act; "DW" from April to June, 1956, printed articles urging banning of H Bomb tests as "tremendous step toward real disarmament;" "DW" of 5/18,24,25/56, criticized attempts to exclude from Social Security benefits present and former CP employees and their dependents; The National Trade Union Commission met on 6/6/56, and concluded there are possibilities for CP work in merged organization of AFL-CIO, and CP should take advantage of differences within it to advance cause of left; At this meeting, [redacted] Organizer, reported little CP influence in United Steel Workers of America; At CP meeting held 4/2/56, [redacted]

[redacted] said CP policy regarding United Electrical, Radio and Machine Workers of America (UE) favors merger agreements with Independent Union of Electrical, Radio and Machine Workers of America (IUE) on district or local basis, as opposed to fragmentation of UE. "DW" of 4/30/56, reported receipt by wife of [redacted] convicted under Smith Act, of letters from persons in Europe and Asia protesting cancellation of his veteran's disability pension by Veterans Administration. Bulletin of National Organization Department and National Negro Commission announced conference on South to be held at Jefferson School of Social Science on 6/30/56, stating conference was preparation for book by Marxist authors, to arm progressive movement with theoretical understanding of Soviet as primary political question, to help influence democratic movement there and to develop relations with non-Marxists who have interest in the Southern question. EUGENE DENNIS in receipt of letter dated 4/23/56, suggesting that at least one US representative serve on preparatory committee for Youth Festival to be held in Europe in 1957; "The Worker" of 7/1/56, reported holding of First

b6  
b7c

World Conference of Women Workers on 6/14/56, at Budapest, at which opening report stated that women in capitalist countries find it difficult to get higher technical qualifications or to use them if gotten. Meeting on farm matters held at CP national office on 5/2/56, and agreement reached that Midwest is main area for Party work on farm matters and Midwest farm commission should be organized. [redacted]

b6  
b7c

[redacted] "DW" columnist, on 4/17/56, expressed approval of Fine Arts Bill pending in Congress, on which hearings were being held in New York City. PAUL NOVICK, Editor of "Morning Freiheit," at meeting with DENNIS and Jewish Communist leaders, charged that pogrom of Jewish culture and execution of Jewish writers was done by counter-revolutionary forces aiming at destruction of USSR. Informant advised that a new orientation of left among national groups is decisive factor in defeating reaction and suggestion has been made that each national group confer, following which there be district-wide conferences with representatives of each group to set line and convince the groups CP is giving attention to such work. A national conference under leadership of National Committee would then be called to serve as guide for entire Party. Reports of EUGENE DENNIS, MAX WEISS and CLAUDE LIGHTFOOT to National Committee meeting of 4/28 to 5/1/56, described as basic discussion material for immediate period, with districts expected to distribute them beyond CP to labor, electoral, liberal, civil rights and Negro groups, among others. Publication date of approximately 5/15/56, announced by CP for "The Enemy Forgotten" by GIL GREEN, National Committee member imprisoned for violation of the Smith Act. "Discussion Outline for Clubs," prepared on 20th Congress of CPSU, claiming significance for Congress in

registering change in relationship between Socialist system and capitalist system, charting transition from Socialism to Communism, opening a fight against dogmatism and doctrinairism with reevaluation of role of STALIN, and opening a new era of Soviet democracy; Consideration being given to change of name of Jefferson School of Social Science as well as change to broader program with greater appeal to progressives. "The Worker" of 5/6/56, published letter of that school's officials, asserting what must be learned is combining Marxism with what is unique in American experience. Admission made that serious questioning of teaching there has been discouraged and those with differing views should find platform and reading of their works in School;

T-2, on April 6, 1956, advised that HOWARD FAST, on March 28, 1956, organized the Emergency Committee for a Free Press to assist the "Daily Worker" and "The Worker" over their financial crisis, subsequent to the seizure of their assets by the Internal Revenue Service.

Emergency Civil Liberties Committee

The "Daily Worker" an East Coast Communist daily newspaper issue of October 8, 1951, page one, columns four and five, in an article entitled, "150 Notables Form Emergency Civil Rights Committee," reflected that the formation of the Emergency Civil Liberties Committee had been announced on October 7, 1951. It was shown that the purpose of the organization would be to help mobilize public opinion in support of the traditional American Constitutional guarantees of civil liberties and to render aid to victims of abridgement of these liberties in politics, education and the professions. The founders, according to the article, included more than fifty members of the clergy and many educators and professionals.

T-46 on October 21, 1955, furnished information reflecting that the Communist Party felt that help should be extended in building a "united front civil liberties organization" in the United States, which while not led by the "left", would contain labor, liberal and "left forces" within it in a commonly agreed program, including defense of the rights of the Communists.

The information further indicated that the Communist Party felt that this aim can best be achieved by helping the Emergency Civil Liberties Committee to become a national organization with local chapters operating on the basis of its program.

The Emergency Civil Liberties Committee is located at 421 Seventh Avenue, New York 1, New York.

NY 100-4931

"Facts for Farmers"

Service Bureau of Jewish Education, also known as:  
Service Bureau for Jewish Education, Jewish  
Educational Service, Committee for Progressive  
Jewish Education

T-27 advised on June 14, 1955, that officials of the Department of Insurance, State of New York, had recently served a demand upon the Committee for Progressive Jewish Education that it, the Committee, surrender itself to the Department of Insurance as an asset of the International Workers Order. The demand was based upon the State's claim that the Committee for Progressive Jewish Education was merely an extension of the National and Cultural Committee of the Jewish People's Fraternal Order (JPFO), International Workers Order.

United Electrical, Radio and Machine Workers  
of America (UE)

The "Directory of the National and International Labor Unions in the United States, 1955" published by the United States Department of Labor, lists on page four the unions expelled by the Congress of Industrial Organizations (CIO) on charges that they were Communist dominated. The UE was listed among those unions expelled on November 2, 1949.

This section was prepared by SA JOSEPH V. WATERS.

On April 17, 1956, T-45 reported that under date of December 1, 1955, the National Organizational Commission circularized all Party districts on the subject of transfers of Party members.

This communication asserted:

"Present slipshod practices in handling transfers continue to create security problems and unnecessary delays in contact and transfers."

It was said that transfers received are frequently illegibly written on odd pieces of paper and contain inadequate information as to standing, characterization and the method of contacting the transferee. It was said that apparently the transfers originating in clubs and sections are merely transmitted by districts without stating any information as to its adequacy or political approval by the higher organization. It was said that the national office had been put in the position of having to decide whether to send through inadequate material in order to avoid extreme delays.

The communication asserted that beginning January 1, 1956, the national office would return improperly prepared transfers and the originating district would thereupon be charged with responsibility for any further delay. Districts were instructed to prepare their own uniform systems until a national transfer system was evolved. The instruction was given that transfers be prepared on a half sheet of paper, preferably typed, and containing the following information:

NY 100-4931

1. Name and address of person or persons to be transferred;
2. Dues standing;
3. A clear political characterization of activity and role, level of development, length of time in the Party, recommendation for assignment, etc.;
4. A clear explanation as to how the person making the contact is to be recognized.

Lastly it was stated that many members had been lost because of inadequate handling of the information called for in three and four and frequently questions are raised about the person being transferred without any recommendation from the district of origin. The burden of resolving doubts was placed on the district of origin and that district would be held accountable for transfers originating in it.

RE: CP, USA MEMBERSHIP

"F. Based on 54 memb fig

"G. No reliable memb fig"

The column headed "1956" is apparently the total dues payments received by the various CP districts up to March 31st. The column headed "R" is probably recruits received into the CP as of 3/3/56. The next column headed "55 Assessments" contains the total assessments received by the CP and their various districts in 1955. The last column headed "1955" lists the total dues payments, the percent of members making these payments, and the total number of recruits received into the CP in 1955.

Using the figures listed in the third column, a national membership and a district-by-district membership can be obtained for 1955. To obtain the membership figures for the various districts, divide the total dues payments by the percent, and then divide this result by 12 months.

For example, 85% of the NY CP membership made 92,102 dues payments in 1955 (each CP member is supposed to make 12 monthly dues payments each year). By dividing 85% into 92,102 and then dividing by the 12 monthly payments, a membership figure of 9,029 is obtained for the NY district for 1955. Using the same procedure, a national membership figure of 17,685 is obtained for 1955.

Copies of this letter are being sent to all offices in the continental United States for information purposes.

If this material is to be disseminated, extra care should be taken to protect the highly confidential nature of this informant.

The original of this material is being retained as an exhibit in NY 100-56579.

Rebulet to NY dated 5/25/56.

This office has contacted informants in this area relative to the national policy of the CP regarding transfers. As the Bureau has previously been advised, on 2/18/56, [redacted] made available a copy of the letter dated 12/1/55 prepared by the National Organizational Commission, and addressed to all CP districts regarding transfers. This letter, which is identical with the letter set out in rebulet, was sent by [redacted] a CP functionary in NY, to [redacted] Chairman of the Texas State CP Board, via courier. Photographs of this letter were transmitted to the Bureau. Attached to this letter at the time of its interception by [redacted] was a half sheet of notebook paper on which was the following handwriting:

b7D

"(illigible) & [redacted]  
(illigible) [redacted]  
114 West Second  
Casa Grande, Arizona. This young couple operate a small jewelry store called Palacio deHojas. They feel that Goldwater can be defeated."

Below this in what appears to be another handwriting appeared the following notation:

"From TX. - transfer"

It was believed that the handwriting last referred to might be that of [redacted]

From the above, it would indicate that [redacted] maintains the transfer records in the Dallas Division. [redacted] is known to be the liaison representative of the State Board with the National Board, and has made several trips to NYC. It is believed that on these trips, [redacted] takes any data relative to transfers to the National Office of the CP. The aforementioned letter also had other material which indicated the time of the holding of a Southern Regional Conference in NYC, and also designated [redacted] and [redacted] as alternates for [redacted] to attend same. Both of the [redacted] have been long-time CP members at Fort Worth, Texas, and recently,

The Dallas office has been unable to obtain information as to whether these transfers are being maintained at the National Office or kept elsewhere. The Dallas office has not obtained any information which would indicate that transfer records are maintained in this area.

SUBJECT: COMMUNIST PARTY, USA  
MEMBERSHIP  
NEW YORK DIVISION  
INTERNAL SECURITY - C.

Reurlet 1/12/56, captioned as above, concerning the extent of your success in identifying all Communist Party (CP) members in your territory as well as securing complete and accurate membership figures.

Certain investigative steps taken by your office in the past have effectively established the over-all membership figures within your territory as well as throughout the entire country. There is little to show, however, in the way of successful identification of those CP members located in your territory when contrasted with the current membership figure. The last membership figures furnished by your office show approximately 10,618 CP members in your territory as of 3/31/56. The total number of Security Index (SI) subjects with CP affiliation in New York as of 6/15/56 was 2,439. In comparison, several other offices having the next largest concentration of CP members show the following statistics:

<u>Field Office</u>	<u>CP Members as of 3/31/56</u>	<u>SI Subjects With CP Affiliation as of 6/15/56</u>
New York	10,618	2,439
Los Angeles	1,870	2,347
San Francisco	958	1,286
Chicago	896	666
Philadelphia	521	557

From the above, it appears that either (1) a great number of CP members in New York have not been identified or (2) Party membership figures of 10,618 are extremely out of line. While it is felt that there is some exaggeration by the

Party of its membership figures in New York City, it is not believed to be as low as your SI figures would indicate. Therefore, the discrepancy would lie more in the direction of the unidentified CP members.

Again using the same offices, as set out above, it is significant to note the position of your office in relation to the current number of security informants developed as of the end of May, 1956.

<u>Field Office</u>	<u>Security Informants</u>	<u>Potential Security Informants</u>
Los Angeles	115	49
San Francisco	107	62
New York	68	39
Chicago	62	35
Philadelphia	52	10

It is realized that not all of the security informants totaled above report on CP activities; however, a high percentage do so in each office. Recognizing this factor and without attempting to establish precise figures, there is set forth a further breakdown reflecting an approximate ratio of CP members to security informants in each of the respective offices.

<u>Field Office</u>	<u>Number of CP Members</u>	<u>Number of Security Informants</u>	<u>Approximate Number of CP Members per Security Informant</u>
Los Angeles	1,870	115	16

Chicago	896	62	14
Philadelphia	521	52	10
New York	10,618	68	156

Letter to SAC, New York

The need and certainly the most practical investigative technique for improving the coverage of CP activities through the intensification of your Informant Program has been brought to your attention by the Bureau in the past. It is fundamental in the process of establishing a corps of informants that the larger the number of members known the greater the field of selection and eventual success for improved coverage. Conversely, the more informants developed the more members identified. One process complements the other.

It is noted from a review of letters submitted by your office in conjunction with the progress being made in the development of security informants that the integrated investigative system is being used in security investigations. The use of the integrated investigative system when properly employed and intelligently analyzed will reveal most of the apparent weaknesses in investigative operations as well as highlight those areas in which progress is being made. At the same time it is believed that the integrated investigative system arouses more of a spirit of competition and that recognition for accomplishments can be more accurately established.

*of residence*

You are requested to furnish the Bureau by 9/10/56 with the number of CP members your office has identified as of 9/1/56 broken down geographically by borough and areas within the boroughs. This number will, of course, include all of those currently a part of the SI list. Thereafter, you should report on a bimonthly basis the number of additional members identified in each of the geographical breakdowns to reach the Bureau no later than the tenth of the succeeding month. It will not be necessary to submit names of subjects.

While the purpose of this letter is to stress the need for improving CP membership coverage in your territory, it is at the same time pointing out the definite need for stronger informant coverage as the biggest step toward realizing this aim. It is believed that through proper supervision and intelligent analysis of investigative operations of your office much improvement can be made in this direction. The Bureau intends to closely follow the periodic progress made by your office in this regard.

MEMO  
NY 100-4931

The information contained in this report should not be disseminated outside of the Bureau unless it is paraphrased.

By report dated 7/2/56, informant reported on meeting held 6/28/56 at Chateau Gardens, NYC.

Report

Communist Party  
USA Activities

July 2, 1956  
New York

Some 700 Communists attended a Communist Party mass meeting on the problems facing the Communist movement in the United States. The meeting was held on June 28th, 1956 at the Chatteau Gardens in New York.

Admission to the meeting was by invitation cards, which a member was able to get at any CP organization.

H. Apthekar chaired the meeting.

The chairman told the meeting that Eugene Dennis, who was scheduled to address the meeting, took sick and was unable to come to this meeting: "He has a cardiac condition and he worked to hard at the recently held meeting of the national committee of the Communist Party. (The National Committee of the CP, USA met on June 22nd, 23rd and 24th, 1956). I am sure that everyone here will join me in wishing Gene a speedy recovery." He introduced Max Weiss, National Educational director of the CP, as the speaker at this meeting.

Max Weiss said that he is not substituting for Gene Dennis, that he didn't have a chance to prepare himself to speak but he will try his best to state his views on the problems facing the Communist movement in the light of the 20th Congress of the Communist party SU.

Max Weiss stated that we are living in a new era, "an era in which socialism became a world system."

He said that one of the most important contributions of the 20th congress of the Communist Party, SU was Khrushchev's report to that congress that the emergence of socialism from within the bounds of a single country and its transformation into a world system is the main feature of our era.

att.# 1 to 100-80638-1111

He underlined that some 900 million people are now in the socialist camp and that as a result of this the struggle for socialism is being waged under new conditions and that "peacefull transition (from capitalism to socialism) is now possible on a world scale".

He also underlined that war "is not inevitable" and that "co-existence is on the order of the day" and that "the American people reacted favorable to the Khrushchev report."

Max Weiss also stated that "Stalin's crimes are alien to socialism" and that Krushchev's report shows that the campaign which was waged by the Central Committee of the Communist party of the Soviet Union for the last 3 years against the cult of the individual was aimed at the removing of this road block of socialism."

Weiss also stated that it is wrong to describe "all the bad things" to Stalin and that "the central committee of the CPSU must still answer some questions which are disturbing our party and the international Communist movement."

He underlined that the fact that "Pravda" reprinted Eugene Dennis article shows that the Communist party of the Soviet Union "feels its responsibility to the international Communist movement and might shortly answer the many disturbing questions." Talking on the above mentioned Dennis article which was reprinted in the "Pravda" Max Weiss criticized Eugene Dennis for not submitting this to the party's "collective leadership for approval". Weiss asked: "why wasn't Stalin stopped? Our party and the other Communist parties of the world are still waiting for the real answer to this question. The answer that a struggle against Stalin would have undermined confidence in the Communist party of the Soviet Union is nonsense. It is not true. The hero-worship of Stalin was accepted by the Central Committee of the CPSU. The silence of Khrushchev on this point requires an explanation."

He said that "the Marxists of all countries are obliged to participate in the analysis of the Stalin era and reach full conclusions on this."

Weiss spoke of the building of socialism "in a backward country" (Russia) and that the "outside world tried to strangle the Soviet Union" and that this led "to the most centralized dictatorship of the proletariat" but with the death of Stalin this era came to an end and the "present leadership of the Soviet Union is undergoing many changes and now our own party has some re-examination of our own."

Max Weiss underlined that "the workers of the world have a common interest" and that "the struggle for socialism is international" and that "criticism and self criticism will only strengthen the socialist advance" and that "the fight for socialism will continue in a new prospective" and "our party will be called to make its contribution to socialism" and he asked the membership of the Communist party USA to participate in the discussions and not to wait for a blue print from the leader but to give to the leadership a blueprint for its' orientation.

He also stated that the national committee of the CP is ready to send representatives to the party clubs to listen in and to participate in the discussions. The chairman asked to send up written question which will be answered by Max Weiss.

During the remarks made by [redacted] the chairman received many written questions which he and Weiss were assorting.

[redacted] appealed to those who did not yet become subscribers of the Daily Worker and The Worker to do so here by filling out the subscription blanks which were placed on each seat in the hall.

b6  
b7c

He also asked everyone to participate in the present fund drive of the Daily Worker. He said that the paper must have "at least \$40,000 during this summer to exist."

He made a few cracks about "some questions that are creating sleepless nights in Washington: Are the Communist movements getting weaker by the day or stronger by the week? Has the Kremlin relaxed control or is it just relaxed? Is it good news for John Foster Dulles or for William Z. Foster?" etc.

[redacted] concluded with a call to work for a "democratic coalition against the monopolists" and for a "democratic socialist America."

b6  
b7c

Max Weiss told the meeting that it will be impossible for him to answer here all of the questions; that he will try to find a way to answer most of the questions possible through to "Party Voice" or some other medium.

He answered one question: (he did not read the question) "Well, there is a tendency to minimize our accomplishments. We made an outstanding contribution in the struggle for peace, civil rights and against McCarthyism. Yes, we are advancing the idea that our government should adopt the policy of co-existence." An other question he answered: "Wide discussions and the developing of a mass socialist movement goes together." Answering another question: "It was wrong to make decission and policies without consulting those comrades who are directly involved in the work. There should be consultations between the leadership in those who are involved in trade union and in mass work."

Another answer: "We have suffered tremendous losses in membership. We reject Browderism- it is class colaboration. We are now examing all the cases of those who were expelled from the party and we will try to get most of them back."

Two more answers:

- 1) "Changes are necessary in the constitution of the party."
- 2) "The question of a United socialist party should be discussed by the membership."

For the purpose of clarifying the information appearing on page "L-19" of the above described enclosure, the following interpretation is offered:

Page "L-19" is a summary sheet of CP membership in California containing a breakdown of the CP's concentrations in mass organizations. The sheet contains figures broken down into two columns opposite each listed organization. One column is headed "Members only" and the other column is marked "Active in."

From a review of the 1956 registration figures previously furnished by SF 2158-S\*, which contained a breakdown of CP concentration by sections in SF, and by contact with [redacted] and [redacted] both of whom were actively engaged in the computation and reporting of the 1956 CP registration, it is believed that these two columns must be interpreted as separate and independent figures. Los Angeles, California

On Friday, 7/13/56, there was an enlarged meeting of the County Committee which, according to the understanding I got, was to include not only the members of the County Committee but all Division Organizers and Division Org. Secs. This meeting continued on Saturday, 7/14/56. Present were: DOROTHY HEALEY, [REDACTED]

[REDACTED] ROSE CHERNIN, [REDACTED]

[REDACTED] BEN DOBBS, [REDACTED]

[REDACTED] who took shorthand notes

of the report. [REDACTED]

[REDACTED] ALEC [REDACTED]

[REDACTED] CYRIL BRIGGS, [REDACTED]

[REDACTED] BERNIE [REDACTED]

[REDACTED] and BILL SCHNEIDERMAN. There were 50 or 60 people present. The meeting was chaired by DOROTHY HEALEY who introduced BILL SCHNEIDERMAN. He spoke about two and one-half hours without interruption except for one break halfway through. There was no discussion. The discussion on SCHNEIDERMAN's report was an all-day meeting on Saturday.

SCHNEIDERMAN said his report was based on a meeting of the National Committee which had been held apparently the week before in New York City, and this was an intermediary meeting between the first meeting he attended and the third meeting to take place 7/23-24/56, in New York, at which time there will be a report back from the sub-committee on certain basic policy and an effort to evolve something from the confusion of the previous discussion.

There were three main points: 1. Party org. 2. The KHRUSHCHEV report. 3. Negro Question.

He started in reverse.

On the Negro Question, the main report at the National Committee meeting was given by BEN DAVIS, and represented apparently a somewhat collective opinion from the National Negro Commission, although he said there were differences of opinion that had risen within the discussion.

First, on the characterization of the Negro peoples struggle; he said, that this struggle has now reached the highest point since the Reconstruction period, and is the property of the whole American people, and is no longer a question

b6  
b7c

of concern to only the Negro people. It has achieved international repercussions, particularly among colonial people, and there are alliances of the Negro people and the labor movement. Then he, SCHNEIDERMAN, made the statement that BEN DAVIS stated that a realistic perspective exists for the Negro people in the democratic system, and everyone should get this point. On the characterization of the Negro struggle at this period it has shifted to a center of gravity based in the South, and is led by native Negro leaders in the South. The main alliances are in the North and with labor, meaning it has a working class orientation. The white masses generally in the South are neither aggressively hostile or actively supporting the struggle. The White Citizens Council can be chiefly characterized by a campaign of terror and economic reprisals. The mass role of the NAACP reflects the all class role of the struggle. This is not limited to the workers and agrarian forces, but is developing important Negroes in the South in all professional groups. Significant of the Supreme Court decision in the fight on integration, is the coalition developed against Senator EASTLAND, who is identified with the White Citizens Council type of movement. The coalition takes people of all sectors and developed primarily around the Supreme Court decision. This is no longer an agrarian struggle.

DAVIS reported roughly 50 per cent of the people involved in the struggle come from industrial centers. The role of the Party is to speed the democracy of the South and aid development of the national aspect, the right to vote, land reform, etc. In the North the key issues are housing, education, jobs and segregation. Its necessary for the Party not to try to impose our ideology on the issues, but to develop the Negro ideas. He said education is not a key issue in the North, and is not an issue we would select, but since it has been selected by the Negro people this must be supported as a key issue. He made it clear the Party cannot base its position on the demand the Negro people support international issues since Negro issues must be domestic issues primarily. He characterized the role of the Party in the past, in spite of its major contributions to the Negroes, as left sectarian, and cited characterizations by the Party of A. PHILIP RANDOLPH and the Negro Labor Councils as ways to isolate the Negro people from the Party. He said the National Negro Commission has appointed a sub-committee to review theoretical questions, basically on whether the Negro people constitute a nation, which is a controversy presently raging in the Party. On white chauvinism, characterizations were made that we are a party of Negro - white unity, and Negro nationalism and chauvinism cannot be

a main struggle anymore, because while the question of white chauvinism is a political, ideological question and there is a need to strengthen the Party against white chauvinism, there is much more at stake than merely to reduce the struggle to this level. The development of the Negro woman is one of the key problems. The Party can play a role in Negro communities, and he, DAVIS, stated that our relations with the Negro communities is better than with any other section of people, and we have more ties and strength with the Negro people than any other people. He proposed a Negro-Marxist paper.

SCHNEIDERMAN reported that at the National Committee discussion CLAUDE LIGHTFOOT raised the question of FOSTER's formulation that the Negro people are a young and developing nation, but had not achieved the characterization of a full nation yet, was one that confused LIGHTFOOT, and he felt FOSTER had done a disservice in making this formulation because it confused the issue whether or not the Negro people were a nation. LIGHTFOOT said our main role in the Negro community is education for Socialism, and not issues around the National Question. He said the Negro people are an oppressed minority; that Negro people should associate themselves with neutral peoples of the world politically and should be identified the same way, politically, as the Indian people or other groups not allied with the imperialistic west or Socialism, but should take a neutral position.

CARL WINTER took the position the Negro Question is still a national question.

[redacted] did not agree on white chauvinism because he believed it's the main issue, and stated that new Negro recruits enter the Party with more Negro nationalism than white comrades come in with.

b6  
b7c

WILLIAM Z. FOSTER stated that sectarianism on the Negro Question is worse than in any other field. On theory we took STALIN's formulations on the National question far too literally. He compared the Negro people as a nation which they have not achieved, and compared them to the people of Wales. He said we should not abandon the formula of Negro people as a nation, but he did not characterize the Negro people as a nation at this point.

SCHNEIDERMAN was very critical of DAVIS' report stating it did not answer the role of the Party in relation to the Negro people adequately, and felt our role should be to help and point out the next step. He felt that our

main responsibility should be a struggle on white chauvinism.

EUGENE DENNIS stated the civil rights issue is a pivotal point in the election struggle and the fight for Negro representation is the key political action to be brought to the people.

[redacted] said the National Question is paramount in the struggle for Negro rights. He stated that in California the two main points are: 1. All class unity in the Negro peoples struggle, which should be a permanent struggle in places like California. 2. The Party must give Negro comrades latitude and authority to develop Negro policy and then the Party should support this policy.

b6  
b7c

JOHN GATES said the Negro people are in need of national consciousness. In discussing the nation he said we overlooked the fact the Negro people are a part of a nation, an oppressed minority.

DAVIS spoke on the shift of the struggle to the South, and said we should shift ourselves to the South not only on the question of white chauvinism but strengthening rights.

SCHNEIDERMAN said there was a motion that the National Committee approve the main line of the report and implement proposals in reports to the sub-committee of the National Negro Commission.

On the KHRUSHCHEV report SCHNEIDERMAN said there were sharp differences in the National Committee in its reaction to KHRUSHCHEV's speech and developments following the report being published. DENNIS reported on this saying that certain historical and objective factors led to the role of STALIN. He raised a question as to the role of the present leadership and a further question as to the role of the Daily Worker, which he said verged on being anti-Soviet Union, and the role of JOHNNY GATES, Editor of the Daily Worker. DENNIS felt these differences should be discussed. DENNIS stood in agreement with the MAX WEISS report that the errors were representative, and the responsibility of the whole Soviet Union leadership in regard to STALIN, and stated further that mutual criticism is correct and necessary between Communist Parties of various countries, and we have a right to criticize the Russian Party. He disagreed with the call in the Daily Worker for abolition of capital punishment. He disagreed on the Daily Worker editorial on

the KHRUSHCHEV report in that it rushed to conclusions without consulting leadership or membership of the Party. He was critical of ABNER BERRY and [redacted] and was critical of the column on [redacted] (ph). He was critical of the JOE CLARK column which said the errors were being corrected in Eastern democracies but not in the USSR, and saying the USSR refused to correct errors and the Eastern countries were farther ahead than the USSR. The Daily Worker attitude was not friendly criticism but anti-Soviet Union and inflammatory.

b6  
b7c

GATES position was that none of DENNIS' articles have taken note of what happened in the USSR. He denies the Daily Worker editors ever tried to minimize the CP.

FOSTER spoke regarding the Daily Worker. First on the question of the errors in the USSR having been based in a historical situation. Its not true that there was no background in bourgeoisie democracy in the Soviet Union, and it was necessary for the LENINIST Party to impose Socialism by force because the Russian people were not ready for Communism, and therefore, they were hostile, as he put it, and it was necessary to impose it by force, and this was the reason harshness arose because it was a pattern stemming from this background. He also attributed excesses to capitalistic encirclement, and said STALIN had mass support and the present leaders weren't in position to expose STALIN because the Soviet people would not accept it; that STALIN was different from LENIN in personality and the excesses were because he had a different kind of personality and LENIN wouldn't have done this, but the present leadership in the USSR had exposed these excesses and the Security Division had taken over from the Central Committee. Earlier denouncement of STALIN might have split the Party in the Soviet Union, and the enemy forces would have moved in and destroyed Socialism there.

MAX WEISS took the position that errors may flow from the Soviet State; that Socialism was violated by the Communist State. Political decisions are made by individuals and because these individuals weren't utilizing Marxism and Leninism they made errors, but the structure of Socialism doesn't have these errors in it.

SCHNEIDERMAN said there was a big hassel about endorsing the main line of the Daily Worker. He took the position that the National Board and the people at the center have abdicated leadership and are maneuvering among themselves with power politics; that they are playing an unprincipled role in fighting among themselves and are

rushing into meetings with a completely formulated opinion. This has become a scandalous thing in the East, and there are questions of retaining the present leadership. He said that in an effort to resolve the situation so the National leadership could continue with unity they threw together a resolution which endorsed the main line of the Daily Worker saying that the Daily Worker was moving in the right direction generally although there were a number of weaknesses and errors. Nobody was happy with this formulation but they came out with no blank checks for the Daily Worker or for DENNIS, the two furthest groups apart. They finally adopted a statement printed in the Daily Worker and partly republished in the Peoples World endorsing generally the main line of the Daily Worker.

On Party org. SCHNEIDERMAN said the Committee was not prepared to make any comprehensive overall report. The National Committee did not come in with such a report, and the Org. Committee in New York District made up a report, and he said the weaknesses in the report were it was based on experiences in New York State and not applicable to the rest of the country, but it did provide a taking off point for a general discussion. New York lost two-thirds of its membership since 1946. SCHNEIDERMAN said California only lost fifty per cent. The New York report attributed this to objective factors such as tactics against the Party during that period where comrades were afraid because of attacks, errors made in arbitrary decisions where large amounts of people were dropped without consultation, in 1952 due to draft resolutions, and around the election campaign.

On the question of trade union work there is improvement of the industrial composition of trade unions, and a shifting of additional people into industry. 2. We have adopted exaggerated objectives that are impossible to support, and made demands on the membership to take on a number of tasks that could not be achieved, i.e. the CRC mobilization for thousands of people to go to Washington. This was unrealistic because it was impossible to get thousands of people to Washington. On fund drives the Party is in serious financial straits; and there is a financial crises in the Daily Worker and Peoples World, and we make financial demands that drain the Party membership and surrounding forces. The question is what should be done with the paper as a result of this situation.

On org. forms: 1. There should be a severe slash on the number of full timers on the National staff. 2. Policy making bodies must be made up of full timers and certain

people in mass work. 3. Decentralization of the Party is essential, and policy should be made in local areas unless of national import. Trade union forces to have autonomy in developing policy, Negro forces to have autonomy in developing policy, and local, State and County sections of the Party to have autonomy in developing policy for their areas. The State leadership role be limited to State concentrations.

New questions on Party org. were: A monolithic Party, democratic centralism, and organization of a new mass Party for Socialism. 1. Discussion around the monolithic concept with democratic principles. 2. Democratic centralism. We distort democratic centralism by our methods of channeling decisions from the top to the bottom without reverse channeling ever being opened. We must revert to majority rule. 3. The leadership should be selected by their record. 4. Leadership must be elected by democratic elections. 5. We must find channels for mass work. 6. We must develop independent expression on international affairs in the Party. As to the form of organization: 1. The question of industrial clubs. We must not liquidate industrial clubs. 2. On the question of Industrial Divisions, New York has merged all industrial clubs into one division. Philadelphia has dissolved Industrial Divisions and Clubs. There was sharp disagreement between New York and Philadelphia.

SCHNEIDERMAN said in the discussion DENNIS said that the perspectives set out in the report were correct. A new mass party of Socialism is a perspective we should work toward. Perhaps the National Convention can make a change in the name to broaden the Party.

We must strengthen democratic processes within the Party. There should be no basic policy change without a convention. The Constitution should provide for more initiative.

b6  
b7c

SCHNEIDERMAN said he presented the comments of the California State Board which were based on a proposal sent in on experiences of organization in California: 1. A delegated conference be convened on a section or regional area to discuss mass work and perspectives. 2. There be Regional Conventions and frequent conferences between conventions. 3. Review of policy. 4. Membership must be informed of differences of opinion among the leadership; an end to unanimous reports. 5. Leading bodies should be elected by direct representation and should function as policy making bodies; should not be used as mobilizing bodies.

6. The Party membership should be granted a Bill of Rights, there should be no expulsion except for acts against the Party, and a Constitution should be adopted containing the rights of members. Co-option should be eliminated. The leadership must report back to the lower bodies. 7. Clubs should be given greater autonomy in developing agendas. 8. Leadership should be broadened to include those in mass work. 9. Leadership should not wait for conventions. Discussion on leadership should be opened on club levels. 10. Problem of how to bring decisions down to the clubs and get the thinking of the club going up. 11. Provisions by which membership can discuss changing policy between conventions. 12. Local or State By-Laws establishing how the leadership should be elected.

These are to be published in the Discussion Bulletin in full form. These were recommendations from California delivered by SCHNEIDERMAN.

JOHN GATES on the California proposals: If we don't make the change we're through as a Party, at least we should change the name. He reported that he had met with some trade union forces who previously had been in the Party, and also some ex-Party people in New York, who are not enemies of the Party but who are no longer in the Party, who met with him regarding the policy of organizing a new and separate CP to be based primarily on trade union forces. What this means was not spelled out further. Implications from the way it was raised makes it possible these might be Taft Hartley people or people who are no longer in the Party at this point, but not anti-Party. He said we have only begun to fight sectarianism, but this will be a main fight.

FOSTER spoke on Party leadership and the errors of the last ten years, and stated we are getting what we asked for. He doesn't think we should have presented things as was done in the DENNIS report. We opened the flood gates to the membership and they're letting us have it back. We have an ideological crises in the Party. This is developing a right wing in the CP composed and led by CLARK and STAROBIN and some of the New York leadership, and this represents a major danger of sharp cleavage within the Party leadership.

A sub-committee was appointed to prepare a report on the last five years. Chairman, MAX WEISS, Secretary, ED STRONG. 2. Committee on Platform, Chairman WILLIAM SCHNEIDERMAN, Secretary ALBERT BLUMBERG. 3. Negro Work,

Chairman, BEN DAVIS, Secretary GEORGE CHARNEY. 4. Trade Union, Chairman CARL WINTER, Secretary [redacted] There will be a brief statement and analysis on the status of the UE, which is to be or not to be. 5. Committee on Personnel and Cadre, Chairman [redacted] Secretary [redacted] 6. Committee on Constitution, Chairman CLAUDE LIGHTFOOT, Secretary JOHN GATES. 7. Committee on Main Report, Chairman EUGENE DENNIS, Secretary JAMES JACKSON. Plus one member from California to be included on all these committees, which means nine people from California.

b6  
b7c

The next meeting of the National Committee is to be 7/23/56, then a National Election Conference on 9/16-17/56 in New York.

Then there was a resolution at the National Committee meeting requesting the National Committee to guarantee channeling every step of the organizing between now and the convention.

The State Committee in California recommended that all Party Orgs. in California should review their work and prepare to discuss their work at a State Committee meeting, at which time the State will prepare a report of its work. He said certain proposals were made on individual points, such as the Negro Question, clubs, certain org. problems, particularly on inner Party democracy and structure, however, the methods are confusing. SCHNEIDERMAN said to dissolve the present CP would be bad; that it would be impossible to merge with other Socialist forces as we would be more middle class and not less sectarian. The essential features which must be retained in the Party are its working class composition, its capability of acting in a struggle. All attention should be directed toward "has our CP become so discredited it can't retain its role."

The meeting adjourned at about 11:30 p.m.

The session on 7/14/56 opened at 10:00 a.m. with DOROTHY HEALEY chairing the meeting at the Park Manor.

In opening the meeting she stated that she wanted to announce two letters received, one from the NORMAN THOMAS Socialist Party wing requesting a joint meeting to arrange a public debate on the question of the Socialist world today and where its going. A sub-committee was set-up in the County composed of DOROTHY HEALEY, I think BEN DOBBS and [redacted]. They had this meeting with the Socialist Party and agreed on a date but it will have to be changed as it falls on Rosh Hashana. The second letter was signed by [redacted] addressed to the County Committee and said the Steel Club and Auto Club proposed a committee be set-up composed of three from Steel and two from Auto to have a joint meeting with the Socialist Workers Party to promote action. DOROTHY took this opportunity to say the Party has a policy and had in the past of meeting with any honest group which are Socialist minded, including the THOMAS group, for a debate, but our policy is now a united front and no contact with Trotskyites, and that later in the meeting there would be an opportunity to discuss this, but we didn't discuss it as the meeting lasted until 5:00 p.m. They arrived at a procedure agreement that discussions would be limited to 15 minutes per person.

b6  
b7c

First was [redacted] who read a document he had stayed up all night preparing. The document covered the following points:

1. Membership of the Party; that the main characterization of the center in New York is they apparently are immobilized and have no ability to resolve political questions; that Party membership should have an opportunity for full discussions and all levels of the Party should support the statement of the National Committee. He was critical of the analysis of the Negro Question and felt it was inadequate. He stated the main direction of the Party must be the road to Socialism, and our relation to what kind of a Party we have to build in this period. He said it was necessary for us to relate our main tasks of finding the path to Socialism to the building of whatever kind of a CP will best enhance this development, but he feels its dangerous to fall into a negative position that Socialism is inevitable. The Party must be oriented to the working class, we must have industrial working class ties but based primarily on American history, the American scene and American development. On the perspective for a mass CP, we cannot become a mass CP through Socialism. He advocated a new Party with an extended base in the labor movement. He ridiculed "that change in name is anything at all." We must fight for democratic centralism, and mentioned Article 4 and Section 7 of the Party Constitution, and said our main weaknesses are in our application of democratic centralism. He advocated a center of the Party separate from the present leadership, and he mentioned several specifics; that the present leadership has become so isolated its incapable of assessing the current situation, and there must be checks and balances like this separate center to provide

an intermediary policy body. 1. Top leadership of the Party must be restricted from making policy contrary to convention decisions. 2. Lift restrictions limiting discussion on policy to the pre-conventions. In the past could only have discussion on policy before a convention. He said lift this. We must provide for an apparatus of review of Party policy between conventions, getting full reports and having discussion around all reports on policy making. Get differences of opinion, conflicts of opinion and how they are resolved. Build the medium of full policy discussions on lower levels within the Party; that the upper bodies of the Party must be restricted as to lower policy making when policy doesn't affect them. He stated that national bodies should make national policy, state on a state basis, etc. and we must include that the Party membership may call for conventions when they feel its necessary, the rank and file should be able to call for a convention.

On KHRUSHCHEV's report and on org. structure: 1. On membership, full endorsement of the Party program, Socialism, payment of dues, following Party discipline, etc. There should be a category of supporting membership to pay nominal sustainer, meeting occasionally, and to have a voice, but no vote. In other words these would be non-Party Bolsheviks; that on the question of clubs and sections, the clubs should be enlarged and meet only twice a month; there should be established regular Section-wide meetings every two weeks to discuss political questions; Section officers should be subordinated to the Section Council. On the question of Section officers the position of Org. Sec. should be eliminated and there should be specific positions, membership, literature etc., but no catch-all office like Org. Sec. Divisions and Sections should be reorganized for greater functional homogeneity and should be larger. Direct relationship between the County and Sections, and he also considered the complete elimination of the Divisions as an in-between form of org. which is unnecessary if the County would establish ties at the Section level. He proposed continuance of industrial clubs in the Sections and proposed an industrial caucus and trade union comrades should be attached to the community.

On the County and State level a complete review of the State for the past 10 years; that the State org. be split in two parts and two separate Party districts established, each with direct contact with New York; that the County Committee be selected by direct representation; that it be composed of 40 or 50 people; a County Board of 11, the majority to be non-full timers; have a County Council with one from each club to hear County reports and policy about every four months. Define each officer, and each individual to be held responsible for fulfillment of his tasks with no lumping together as a collective responsibility.

[redacted] stated the Party is in a period of serious crises; we must examine the Party today. Many are quitting and some gave reasons why: 1. Disillusionment. 2. Subjectivity, why did I

b6  
b7c

waste the best years of my life only to find out now what STALIN did.  
3. There is no hope for any kind of a change in the present CP.  
4. Some wanted out for years and now they have a "moral" reason to leave.  
5. A vanguard party is not necessary.  
6. People who were disillusioned with the CP.  
7. Those who proposed organization of a new party of Socialism.  
8. A new Party will arrive.  
9. Those who fight to preserve the Party as we know it and feel its disappearing.  
10. People who can't accept what is being revealed. She said the present officers aren't correct. In the past we were larger and had mass influence. There is no real analysis of the significance of the CP in the U. S. today. You can't make a basic change or new policy because the Party is too small and isolated, therefore, our main orientation should be:  
1. To understand U. S. history, its structure, and its culture.  
2. Denounce our past.  
3. Break with sectarian approach to other Socialistic countries.  
4. Establish the position that disagreement is not disloyalty to the Party.

[redacted] He felt the National Committee doesn't give full credit to past achievements of the Party. He pointed out the Party in the U.S. is in a most difficult position because world imperialism is stronger, and therefore, its easier to understand why the Party here made errors. He defended the WALLACE movement inasmuch as he felt it played substantial role in influencing the TRUMAN Administration on the Negro Question. He was critical of the class composition of the Party because it didn't have a working class composition. He felt we must retain the industrial clubs, retain the national characterization of the Negro Question.

b6  
b7c

DOROTHY HEALEY said that some sections of the Party leadership are arriving at finished conclusions. This is an error; that its impossible to define an economic position at this point, we must weigh both error and achievement. We must spend more time on the collective ideology. Left sectarianism is not an adequate explanation; the tactics didn't fit the period. There was over-estimation of imperialism and under-estimation of the Socialist countries. Therefore, the error was right opportunism. Like on the AFL-CIO merger we over defined the period. WALTER REUTHER up to two years ago was at the opposite pole to the Party. Today his position is better than [redacted] We must support any individual when he is right. We must have an evaluation of our work in the IPF, and the whole period of the IPP would be examined. We must get down to cases on examination of our work in each organization. On the theoretical question the error was to examine it out of context. On the Negro Question we failed to examine it under equal development of capitalism in the U. S. In the instance of development of industrialization in the South it proceeded differently than in the West and North. Negro people are a minority, not a nation, but they could develop into a nation, its up to the Negro people. On Party org. we never had a monolithic Party or democracy, so how can we discuss it.

[redacted] Our political approach and political line made errors. We made sectarian errors in the unions. Like in Korea, the Stockholm Peace Campaign. The key question is how can we win the worker to a correct line. We must raise issues correctly to gain support. We over-estimate ability to move. We have been trying to fit a size 50 program on a size 36 org. On white chauvinism and Negro nationalism the position hurt as bad as if you fall off the 9th floor instead of the 10th floor. He felt we should be flexible, but was opposed to the caucus in the trade unions because most of the unions have clauses to bar caucuses within the union. He felt we should maintain the trade union clubs, Sections and Divisions.

[redacted] said the timing of the 20th Congress revelations influenced our present very serious discussion. If the 20th Congress hadn't taken place, and if this situation hadn't broken out we would have had a National Committee report which would have been a pleasant report reflecting none of the unrest in the lower bodies of the Party, and no self-criticism or any of the issues which the 20th Congress has forced the leadership to reflect. There were power plays. SCHNEIDERMAN did a disservice to the Party by acting as an arbitrator between GATES and DENNIS. We must insist our leadership answer to the Party. Org. is not a fetish. The big lie has taken hold of our leadership and they are afraid to reorganize the Party and give full opportunity to the comrades to voice their opinions and criticize the Leadership.

ALEC [redacted] on [redacted] report. He felt it should be published for full discussion in the clubs. He was critical of our work and said we fail to examine the last two years of work in California. There was failure to comment on what the mass base for Socialism is in the U. S. means. He said the building of a new Party has no effect at all on the economic crises. On [redacted] he endorses his position on democratic centralism. 2. Dissolution of the industrial clubs. He felt we should examine the period since 1952 and particularly the period since 1954 and reorganize the Party on the main tasks of the Party. We must discuss exactly what is our isolation, from what does our isolation stem. We have a long term strategy. Our task is to develop an advanced core.

ROSE CHERNIN said she was shocked at the revelations in the KHRUSHCHEV report, and felt the DENNIS article was weak. The Daily Worker should be examined on its role in opening the right to criticize. She was critical of the National Committee report as it cites errors without crediting contributions on the Negro struggle. No one has stated whether we have a CP in the South, and what role they play in the question. She raised sharply that sometime ago a request was sent to her Division that they have a full discussion on the Negro Question. They went into a thorough analysis using STALIN, and the Colonial Question, the Haywood book, LENIN, and the National Question, and other basic documents and developed an approach which raised the Negro people as a nation against the

Negro people as a minority. Then they were instructed to call it off. The Section sent a sharp letter to the State about turning discussions off and on light a faucet. She asked SCHNEIDERMAN directly why this was stopped. She was opposed to half and half elections and said the leadership should be elected by the membership.

[redacted] said the Party is in a difficult period. 1. He foresees a sizeable change in the world in the next period. A. There exists the possibility of preventing war, and therefore, we have a major responsibility to influence the masses to prevent war. B. Achieving Socialism in peaceful means. C. Peaceful co-existence between capitalism and Socialism. D. Obscure world. E. Road to Socialism and transition. On the question of drops from the CP -- over-generalization.

CYRIL BRIGGS said we must not lose our mass work while continuing the discussion. On the National Question we should examine the history of the Negro nation from slave days. Negroes are exercising self democracy in their own way. He was critical of resentment of Negro comrades in the Party today, and he feels the Party is permeated with white chauvinism, however, he feels the California district has a better record generally than most of the Party on this question of the fight against white chauvinism. He used the term "Mr. Charlie" as a term of derision and resentment.

[redacted] on the Negro Question said we needed an examination of past policy. On the National Question an evaluation of the rate of industrialization in the South, the development of capitalistic farming and methods in the South. If its true the rate of industrialization in the development of capitalist methods of farming appear developing, on what basis is it to change character. He called for evaluation before a decision. On [redacted] report, [redacted] is arrogant. He said "you listen to me [redacted] I'm D. O. of the Hull Division, and I have been for some time. You have never even come to my Division and mentioned thinking of dissolving the industrial clubs, and keep hands off until you consult us." He is very critical of the National statement. He said what we need is a majority and minority report so we can evaluate the correctness of these positions.

b6  
b7c

[redacted] said the Party is not through as an org. We can regain the respect we previously had. The primary question is our relation to the working class. Our error was not a question of skipping stages, but failure to analyze processes. He is opposed to the [redacted] letter because it would lead to Trotskyites and would have no base.

[redacted] said the National leadership seem not able to lead objectively, and are overlooking the advance of world Socialism. Why did [redacted] take so long to make a statement? Having made it why did the National leadership take so long to comment on it? Where do we stand

on the working class, on the Negro Question. Extension of the Bill of Rights to the Negroes. The WALLACE movement was a positive contribution. She advocated retention of some of the left centers, orgs. like the Negro Labor Council, CFFB.

JOHN FORRESTER said the Party was incorrect in its method of characterization when WINSTON and PATTUS PERRY were attacked under the Smith Act not one single expression of support was made from the Negro community; there was no alliance to any of the Negro leadership. The Negro people cannot develop fully as a nation because the present ratio of development of the U. S. will make it impossible for a Negro bourgeoisie to emerge, therefore, the Negroes cannot be a nation. The Negro people must be permitted to develop by their own processes, then we'll develop united support for that program. He proposed a meeting of Negro members in Los Angeles County to arrive at a decision and conclusion before the National Convention.

BERNIE \_\_\_\_\_ said there is a crisis in the Party. Org. and structure is second to policy. He took note in a favorable way of GATES statement about the trade unions to exist, and recommended this same program be advanced in other fields of activity where unity could be reached with other honest people.

\_\_\_\_\_ said the National Committee is trying to be both democratic and bureaucratic in content. In the past two years the Party has begun to develop mass ties. On \_\_\_\_\_ she said he raised two questions and presented them as his opinion. SCHNEIDERMAN should raise sharply with the center the fact that he had no authority to raise them. 1. All class unity is leading into world Socialism. 2. The form of development of Negro Marxists. On the question of white chauvinism; essentially white chauvinism must be linked to the Negro struggle. Isolation of the CF as a Party is true, but isolation of CF membership is different and does not exist to the same degree. We have been in a period of humiliation and extravagant goals.

b6  
b7c

\_\_\_\_\_ said we have been together too much without pointing out any answers. Many forces are losing ties with the masses. The leadership is overlooking the rank and file thinking. Basically we are a Party of Socialism. On org. he stated it was almost incredible there is almost no ties between the club and the County and this is unhealthy. He raised the question of 20 layers of directives coming to the clubs and the difficulty of carrying these out. Most Party people are workers and must either quit working and starve to death to try to carry out Party assignments or neglect the Party so they can work the next day. We must find a bridge to these decisions.

\_\_\_\_\_ Analysis in: 1. Bolshevik Party had to use force to enforce Bolshevism, and limit these struggles to these aims. It was

objectivity which dictated the action of the 20th Congress in making a major shift in policy and orientation. Early history of the CP in the U.S. was wasted on the CP, Soviet Union and represents an abrogation. Future of the CP. 1. The CP uses political compromises. We must consult the mass for opinion whether to have the CP. 2. The CP has become identified with Hitlerite tactics and dictatorship in the Soviet Union. He said we should study American history, and he is now taking two courses. He will become active in two mass organizations, and much less active in the CP.

[redacted] disagreed with BUD that there is an abrogation with the CP, USSR, and rejects the characterization of Hitlerism. He made the following proposals: 1. Re-define the role of the CP. Our tasks flow from our position fighting for Socialism in the U. S. We must complete a basic study of the departmental org. 2. Democratic centralism. We must break centralism but not democracy. We must depend on no full time operation. We must lead toward Negro trade unions.

b6

SCHNEIDERMAN on ROSE CHERNIN's statement: The State Board stopped the discussions because it was so instructed by the National Negro Commission. This was taking place all over the country, but it was never explained why it was stopped.

On [redacted] on the question of making the National leadership unavailable after they went to jail, and an end to selection of leadership he said there was a minority opposed to the system of leadership established but the majority group made these decisions based on the imminence of fascism in the U. S. He defended his position in helping to draw up the National compromise on the basis it was not arbitration.

On [redacted] he criticized him for the formulation of Hitlerism in relation to the Soviet Union, and further stated [redacted] position would liquidate the CP.

Discussions will be further held in lower levels. It is felt the leadership at the center has abdicated and is bankrupt, and leadership must come from lower levels.

The following information received from this informant must be completely paraphrased so as to protect his identity:

[redacted] was contacted 8/15/56 by SA BRYAN F. JINNETT, JR., of the Newark Office, and SA [redacted] at which time the informant advised that [redacted] visited JOHN STEUBEN on 8/11-12/56. On 8/13/56 informant visited with STEUBEN and was told by STEUBEN that SIMON recently concluded a national tour for the CP, district by district, with particular reference to union and labor status within the CP.

[redacted] told STEUBEN that prior to the 20th Congress, the membership status of the CP as of the last registration (last fall) was as follows: registered members--17,900 members. Of this number the following breakdown was made: 60% of the membership resided in NYC and NY State. Forty per cent of the remaining membership figure, that is, 16%, resided in Calif.

The remaining membership, consisting of about 4,000 members, was spread out in districts other than NY and Calif.

With respect to the membership situation in the State of Michigan, [ ] indicated there are 35 auto workers in the CP in the whole State of Michigan. Informant stated that if these figures are correct, he would conclude that there is practically no operating CP in Michigan at this time, in that in the past the Michigan CP was made up almost exclusively of auto workers. [ ] told STEUBEN that the CP in Michigan today was comprised of only a couple of hundred people, mainly from the non-labor and non-union element such as professional men, small-business men, students, etc.

[ ] told STEUBEN he personally would like to step out of the CP at this time but does not want to let the Party down and intends to stay on until the CP convention. After the convention, [ ] stated, he and his wife [ ] will quit CP and, thereafter, it is his intention to return to shop work. [ ] indicated he feels it would be futile to remain in the CP. [ ] stated to STEUBEN he is convinced that the CP is in for a thorough reorganization. [ ] further told STEUBEN he has been unable to convene meetings of people engaged in trade union and labor relations activity. [ ] complained that people in these fields have told him that the CP has no policy and, consequently, it would be a complete waste of time to get together and chat.

b6  
b7c

With respect to the internal situation in the CP today, [ ] commented as follows: The big, confused swing going on up to now is commencing to stabilize and the danger of extreme rightward drift of the CP in terms of policy and outlook has now slowed up and a more stable and responsible outlook is beginning to emerge (one which will retain the essential elements of the Marxist-Leninist setup).

Between Labor Day and mid-Sept., 1956, [ ] stated, there will appear a resolution of the national leadership of the CP. This resolution will indicate the future road of the CP.

[redacted] does not know if there will be a minority report by WILLIAM Z. FOSTER or anyone else. If there is a minority report, such a report will be immediately published and made available to the CP membership.

Informant furnished to SA HEALY a document he obtained from JOHN STEUBEN, which document was furnished to STEUBEN by [redacted]. Five Photostats of this document have been prepared for appropriate dissemination as noted. The original document will be returned to the informant for circulation by him among comrades in the NJ area. This document was prepared by CARL WINTER, Detroit functionary, following a meeting held by [redacted] and WINTER for the purpose of formulating a national trade union resolution for the coming CP convention. This document is an outline of the proposed subject matter for the draft resolution.

LETTER TO DIRECTOR, FBI  
NY 100-80639

It is realized that this is a decrease of 18 CP members since Bureau letter of 6/27/56. This was undoubtedly caused by deletions from the Security Index occasioned by the Annual Investigative Report Program. Upon bringing a case up to date in connection with this Program, a re-evaluation indicated that the person no longer came within the standards for retention on the Security Index.

This office is intensifying its efforts to identify CP membership in the manner outlined in New York letter of 8/8/56 captioned as above.

The Security Division of this office, which is responsible for the coverage of the CP activities in New York, has of necessity suffered in the past forty-five days inasmuch as Agents of that Division were utilized in connection with the [redacted] investigations. With the release of the manpower from those investigations, an all-out effort will be made to move forward in the Security Informant Program and the Intensified Investigation of Individuals in an effort to identify the CP membership in the area covered by the NYO.

NOTE :

- 1) In 1952: If we add Cal; South; Rocky Mt. area; we had over 26,000 or close to 27,000. Excluding these we had 22,245.

NK 100-4284-D

- 2) In 1953: 22,500 registered since Report figure of 22,264 does not include Minn-Dak.
- 3) In 1954: Thus far 16,722 are reported registered. This does not include W.Pa.; E.Pa.; Ind; Wis; Minn; Iowa; Mo; R.Mts; Ore; and South. When reports are all in it will show Registration between 19,500 and 20,000. Note should be taken of decline in Ill; Ohio (although report is incomplete); Mich; and Wash.
- 4) While we have sent in some detailed info. on regis. of this Dists. we have gotten in, we will add some additional information. "

Photograph #28 appears to be the work sheet from which photograph #45 was compiled. It is identical to #45 with the following exceptions:

There are no figures listed for Montana, but it bears the notation "Rocky Mt. in Colorado figure". There is also a notation opposite New England on the work sheet as follows:

"12/11 - latest figure  
about 480"

Opposite Cleveland there is a notation "12/11 - Cleveland figure 370". On the work sheet opposite California there is a notation "6/54 Expect 305 more. LA Reg. 1935. Bal. in state. Expect 86 more in LA". Opposite the totals on the work sheet there is the notation "Will register from 19,500 to 20-21".

Photograph #46 is a breakdown of the membership in Illinois, Oregon, and California as to age level and their time in the Party. There is an additional breakdown of the membership in Illinois for union affiliation.

Photograph #49 is entitled "Dues And Recruits, 5 Years (1942 to 1946 INCL.)". This photograph is a chart broken down quarterly for the years 1942 through 1946, showing the number of dues payments in each quarter of each year with a percentage

NK 100-4284-D

figure opposite it. There is a similar breakdown for recruits. This breakdown, for example, indicates the number of recruits for the years 1942 through 1946. It gives the monthly average of those recruited and the number of Party members on the CP's rolls as of January 1 of each year, together with the number registered each year. There is also a column indicating the difference between the number registered and the number on the CP's rolls. There was also a notation indicating that the highest month's recruits were in April, 1943, when 7,123 Party members were registered. It is interesting to note that during 1945 the CP had 75,020 members listed on its rolls and in 1947 it had 74,694 members listed.

Photograph #52 consists of one page of handwritten notes which was found in one of [redacted] notebooks bearing the heading "% drop 52-56". Under this were listed the following states and percentages:

b6  
b7c

New York	36%
Illinois	43%
Michigan	50%
Ohio	28%
E. Pennsylvania	34%
New Jersey	20%

It is believed that these notes represent the percentage of the drop in Party membership in the states which were listed for the period 1952-1956.

This information is being sent to those offices which covered the major underground activity during the years 1952 through 1954.

Copies of these photographs are being forwarded to the Bureau for information and in the event the Bureau may wish to send copies to other offices.

On 6/18/56, [redacted] furnished SA LENIHAN a signed statement in which she admitted attending CP Workers School held in CP Headquarters Building, NYC, during the school 1932-1933 or 1933-1934. [redacted] advised she lost interest in the CP in late 1936 because the CP did not allow individual thought. [redacted] further advised she was "taken into" CP in NYC either in the summer of 1933 or 1934; was employed as a full time stenographer in The Workers School from September, 1934 to June, 1935; and in the summer of 1936, she worked for the Central Distributing Agency.

[redacted] dictated an oral report to Stenographer [redacted] on 8/7/56 and following its transcription initialed such report on 8/23/56. The stenotype notes of Stenographer [redacted] are filed in [redacted]. The report is as follows:

"August 7, 1956  
Los Angeles, California

"On Monday, July 30, 1956, there was a section-wide meeting of the 46th AD held at the home of [redacted] in Redondo Beach, California. I don't know the exact address. It is roughly the 2400 block near Aviation Boulevard, that is, between 2400 south and a little bit south of Aviation Boulevard. The report at this meeting was given by [redacted] and covered substantially the same material as the meeting which was held on Preston Way on Friday, July 20, 1956. It covered a little more material on the first meeting of the National Committee, but since that meeting was not as far advanced as the second National Committee meeting, he tended to emphasize some of the main points that came out in the second meeting and to skip lightly over the first meeting. He mentioned, however, a couple of new points: 1, that BEN DAVIS spoke rather extensively at the National Committee meeting on the main danger being right opportunism. [redacted] spoke on the question of our evaluation of the imminence of Fascism being a subjective rather than an objective approach. GEORGE BLAKE CHARNEY spoke on the relationship and structure of the Party and the constitutional road to Socialism, meaning that we had to change the structure of the Party before it could be adaptable to finding constitutional roads to Socialism. It was pointed out during the course of the meeting that the Party membership in Harlem, New York, which was 1,300 in 1951, had dropped to 91 members in 1956. I thought this was a very interesting figure. [redacted] said that LOUISE TODD, at this conference, pointed out the reason, based apparently on an initial report back from the first National Committee meeting to a meeting in Los Angeles, although [redacted] never said this. As I said before, he covered very little of this first report and emphasized primarily the second report.

b6

"LOUISE TODD at this conference spoke on the developments in California and the estimate of the National Committee that California represents the most advanced and best Party organization in the country today because it failed to comply with the National Committee decisions for removing the entire leadership from accessibility to the membership, and, second, that it fought for and maintained the PW in as broad a capacity as possible. LILLIAN GATES, the wife of JOHNNY GATES, said that we should stop using the word clubs, that

Re Kansas City let to Bureau 8-22-56 and Enalrtel to New York 9-5-56.

The CP in the St. Louis area has been permeated with suspicion and distrust for a number of years. Open CP activity has been limited and only recently has the party begun to recruit new members. The HCUA hearings in St. Louis during June, 1956 caused considerable consternation within party ranks locally and there was much speculation regarding possible "stool pigeons."

[redacted] acting District Organizer, District 21, has been under suspicion by the national CP leadership per CG 5824-S, although they plan to take no action against him prior to the coming national convention. [redacted] has been making periodic trips to Kansas City as District Organizer.

WILLIAM SENTNER, Missouri State Board member, serves in many respects as actual district leader. His authority has been openly questioned by [redacted] South Side Area leader in St. Louis and convicted SMITH Act subject. [redacted] recently questioned SENTNER's alleged assumption of authority and appears to be bringing into the open differences which have existed for many years.

The St. Louis City Committee has openly questioned the authority of the Missouri State Board and has demanded to know why it supercedes them in authority. It has asked how

the board is selected, how it disburses funds, and similar questions.

They have asked for a clearer delineation of authority.

1. It is suggested that since the Midwest coordinator of the CP is in Chicago and since much of the high level intelligence data of the area comes from CG 5824-S, the Chicago office be asked for its opinion of the plan.

2. [redacted] has been advised by [redacted] he is to be the new Financial Secretary of the district and records are to be turned over to him as soon as they are obtained from an unidentified source. In view of the unsettled condition of the district and since the precise contents of the records are unknown, it is suggested the plan be delayed until the informant receives the records. Thereafter, it could be reconsidered in the light of contents of such records. It should be noted the St. Louis office does not have a list of individuals to whom the suggested questionnaire is to be sent.

3. If the plan is effected, it must be assumed copies of the questionnaire will get into the hands of CP leaders and precipitate an investigation. This in turn will focus attention on the New York post office box. Post Office Inspectors might well launch an investigation regarding the holder of the box and the manner in which it was secured, which would be highly undesirable.

4. Consideration should be given to sending the questionnaire to individuals in other districts so that suspicion is not focused at any one point.

5. The first question in the questionnaire may raise some suspicion because the national offices of the CP must be presumed to know whether or not an individual has been a party member. Hence, it is suggested the question be directed solely toward establishing the time of membership.

In August, 1956, NY 1750-S\* advised that JIM TORMEY was a guest at the BART's residence on this date. The informant advised that PHIL BART indicated that WILLIAM Z. FOSTER has not been wrong on everything. According to the informant, BART contrasted the Democratic Party's Convention with that of the CP. BART indicated that even though the Democratic Party had more difficulties than the CP, the Democratic Party resolved their difficulties at the end of the convention. BART stated that "We have more in common in our party but we don't settle our views amicably." BART also indicated that the CP was losing membership because there was no leadership for mass work. BART stated that the Party had lost a thousand members in NY alone because of a poor transfer system.

According to the informant, BART stated that HAL (SIMON?) yesterday asked him his opinion of GENE (DENNIS?). BART indicated that he did not think GENE (DENNIS?) can unify the Party. JIM TORMEY indicated that he thought GENE (DENNIS?) is very subjective.

b6

[redacted] was advised that there appears to be a considerable amount of divergence in the views of the leaders on a number of important points. While none of leaders were named it appears some favored a dissolution of the party entirely, others a modified form of a political association (such as took place under Browder) and others to reform as a study group. Then the matter of the continuance of Daily Worker was discussed. The burden of supporting the paper with the limited funds not available was becoming increasingly difficult and some decision was imperative.

The matter was finally left to the judgement of the upper leadership for the most part. Although [redacted] maintained that she for one had not the same respect for the judgement of the leadership that she had at one time. Not that she questioned the sincerity or doubted that they had made many sacrifices, but she could not overlook their ineptness over the past few years.

As for the Daily Worker, it was agreed that if necessary the paper might be put out as a weekly only.

It was generally agreed that it is now almost impossible to do any recruiting, and appeals for funds were becoming quite disappointing, and the fear of an adverse decision on the appeal from the courts ruling that the party is a foreign agent in real and very harmful.

The Newark Office has advised that a confidential informant reported on September 22, 1956, [redacted] N.J. [redacted] further reported that in addition to the collection of dues, there would be a "convention assessment" made in which employed CP members would be assessed \$2.00 and unemployed and housewife members would be assessed 50 cents. The money obtained by New York and New Jersey will be used to help meet the expenses of the convention. These assessments, however, from other parts of the country will be used to defray travel expenses of the delegates to the convention. The assessment levy is to coincide with the year-end registration. Instead of having a new registration, as has been the procedure in past years, the assessment payment and record will allegedly serve as a new registration of CP members.

The above information indicates that the CP is now embarking on a new drive for funds for the National Convention as well as a registration of CP members. It would appear that each district will in the next several months have considerable activity with respect to CP financial operations and membership data. This drive should present each office with an excellent opportunity to develop additional data concerning these matters.

During the next few months each field office should utilize every available investigative technique to attempt to secure more complete data concerning funds activities in its district, as well as to confirm current estimates of CP membership.

FROM: E.J. KIRBY, SA

RE: CP, USA  
IS-C

SA EDWARD J. KIRBY on October 3, 1956 received a written report from [redacted] and [redacted] who have furnished reliable information in the past. The Informants furnished a written report. They furnished additional information which was reduced to writing and signed by them. The original report is filed as [redacted]

The Informants reported there was a joint meeting of the three Orange County CP Clubsheld at the [redacted] home on 9/27/56. Those attending were:

[redacted]

[redacted]

[redacted] and [redacted] arrived late. Prior to their arrival [redacted] pulled out a piece of paper and said that [redacted] and his wife are transferred in. He said they can be picked up at any time, but they have to decide what club they want to join. [redacted] said he would contact the [redacted] and advise them of the transfer.

[redacted] chaired the meeting. He introduced [redacted] Her main premise was that the CP needed money. She emphasized the member was not in good standing if they are 3 months in arrears in their dues. She said any member 3 months in arrears in his dues cannot vote. [redacted] and [redacted] spoke up and said [redacted] and [redacted] had not paid any dues in 3 years. [redacted] said to tell the [redacted] they must pay up or be dropped from the CP. She said they should pay up at least a years dues. She said under no circumstances can they vote unless they pay their dues. She also said she did not want to hear of [redacted] voting if he had paid only 3 months back dues.

[redacted] reported she had been back to New York for pre convention meetings. She reported the CP is in precarious condition and that many important people in the CP are dropping out. She urged everyone to sit tight until after the Convention and the CP can be reorganized. She reported the situation in New York is jumbled, but that when the reorganization is effected, the situation will be cleared up.

[redacted] said some of the top leaders feel the CP should join with the Socialists. She said she is opposed to joining the socialists because the CP would lose its identity as Marxist followers. She said it is all right to change your procedures, but not your ideals. She quoted FOSTER as saying the CP would have to take direct action and she feels this is right.

[redacted] reported she had taken six applications for CP transfer back to New York, but had brought back only two transfers. She also said she had brought back all the pre-convention resolutions which were offered at the pre-convention meeting in New York. She said she would report on these resolutions at a membership meeting on October 16, 1956 at Bodenhorn Hall in Bellflower.

Above referenced letter contained information concerning the proceedings on June 24, 1956 at a meeting of the National Committee of the CP, USA which was held at the Jefferson School of Social Science in New York City.

Information in referenced letter was furnished by CG 5824-S\*.

CSDE 606-S\*, who has furnished reliable information in the past, advised on August 28, 1956, that CARL WINTER, a member of the National Committee, CP, USA had in his possession material pertaining to the CP. Contained in this material was a notebook bearing handwritten notes which obviously pertain to meetings of the National Committee of the CP, USA held at the Jefferson School of Social Science in New York City from June 22, through 24, 1956, and the meeting of the Administrative Committee of the National Committee, CP, USA on June 26, 1956 in New York City.

DE 100-2050

Inasmuch as the information furnished by CSDE 606-S\* confirms and may in some instances add to the information furnished by CG 5824-S\*, the Detroit Office is furnishing the text of the notes pertaining to the meeting on June 24, 1956, to the appropriate offices.

The notes are written in outline form and abbreviations are used extensively. In most instances the text of the notes is quite clear. However, the Detroit Office is substituting complete words for the abbreviations and where necessary a minimum of words to make the meaning of the notes clear.

Following is the text of the notes:

Report on Organization by  
[redacted] Organizational  
[redacted] of the New York  
CP District

American conditions have changed favorably in the last six years - but our isolation continues. This is the nature of our crisis.

Constant changes in leadership and lack of coordination in shop and industrial work aggravate the situation.

New York Registration:

Lost 2/3 of membership in last 10 years (30% in 1946)  
(19% in 1950)  
( 9% in 1956)

Registration 88% - 92% in industry.

1/3 in industry  
30 - 35% attend  
20 - 25% active  
2/3 over 40 years of age  
85% dues in 1955  
62% in 5 months of 1956.

Lost members remain friendly in the main and have found own areas of activity.

Causes of loss in membership:

Left Sectarian policies resulted in shop and union expulsion.

Drops for security.

Negro losses due to Left Sectarianism leading to isolation from Negro masses and their organizations. (White Chauvinism a minor reason).

1/3 of Community members are in mass movements and organizations.

Contributed to campaigns for city transportation; Negro-White unity; recognition to NAA and Trade Unions; CD camps; re Isreal.

Industrial members are more active in Trade Union Commissions.

Experience is training new skilled cadres.

The main emphasis in industrial work is not on concentration from the outside, or shop papers, but workers.

Aided by colonization and renewed membership of old timers who remained in industry.

Longshoremen 35; Teamsters 30; Railroad Workers 70; Steel 34.

Resistance of membership due to lack of confidence in policies;

Exaggerated objectives set;

Burdensome financial demands (Fund Drive 50%)

Proposed 16 to 29 district full timers.

3/4 of the Party's funds goes to Administration, the "Daily Worker" and Defense.

After the convention consideration should be given to a national weekly; no "Daily Worker" until made possible to sustain.

Structure:

Leading policy bodies are primarily of full timers excluding many who are closest to the masses. We should decentralize and emphasize local bodies. Industrial policy to be made in lower organizations.

We attempted to transplant "What is to be done" on organizational forms and monolithic structure. (Monolith is not democratic). We need major rule together with the fullest airing of differences. Live by Party constitution.

Practically speaking the Party is illegal. All community clubs in Buffalo are functional and members cannot identify themselves as Communists.

Upstate, wives of workers fired from jobs were expelled from NAA. As a result 75 members in an industry had no possible contact despite five years of employment.

There is a need to find a legal mass form of expression of Socialist nature. An independent stand of the CP,USA from the CPSU is needed.

Breakdown of Membership:

Total: 16,500 ----- 78% dues.

NY 9M	61%
Ill. 9C	44%
Ohio 6	28%
Eastern Pa. 4 1/2	16%
NJ 7 1/3	22%
Calif. 3M	11% (incomplete)

Michigan had 300 members in 1955, and 251 in 1956. 26% dues have been collected.

DE 100-2050

From 1952 to 1956 the Michigan membership dropped from 600 members.  
(An explanation of the above figures is contained in referenced letter).

Remarks of

b6  
b7c

Nationally: There is a sharp decline in shop and industrial membership.  
The leadership is compelled to work with individuals instead of clubs.  
1/3 hold trade union posts - most of them below shop level.  
Disproportionate Party demands made upon shop membership.  
(This can only move what we have in contacts; not in the "Labor Movement.")  
Ex-members are largely friendly  
(left due to fear; excessive Party standards; legality; and differences).  
Need to develop legal forms for exchange of political opinions.  
Communists trend to work as "progressive" caucuses in trade unions.

Organizational Question:

Should shop form of organization be primary?  
Philadelphia abolished Industrial Division - New York just formed it.  
General role of trade unionists in community civic organizations.

Main Industrial Issues:

Speed up and shop conditions.  
Job security and results of unemployment.  
Forms of wage payment and incentives  
Political action  
Negro rights and association with the NAA

DE 100-2050

Negative Features:

Most locals fail to consider foreign policy questions.  
A gap is growing between white and Negro workers.

Remarks of GENE DENNIS on "Daily Worker"  
Article

It was 90% correct, especially the first part,  
but was inadequate particularly on question of  
relations between CPs.

Should also have stressed positive contributions of  
"Daily Worker" in developing discussion.

In capacity of general secretary should have consulted  
with the Administrative Committee before issuing a  
criticism of the "Daily Worker" editorials.

On Organizational Question

The future of the "Daily Worker" must be settled.  
A new party of socialism is needed; but  
when conditions mature. We have an important role  
to play in this development.

Consider at Convention - (three words illegible).

Change Party structure, program, name,

Will help developments to a new Party.

DE 100-2050

Continue concern for security - especially in industry.  
Raise the level of the struggle vs. left sectarianism.  
The struggle vs. dogmatism requires convincing  
membership who change views at various rates.

Remarks of [redacted]  
[redacted]

b6  
b7c

The National Committee made progress in this meeting.  
We still need to credit the New York District  
leadership with excellent work in the last four  
years.

The Party is still in a crisis. Not just a critical  
situation.

There has been a 70% loss of Party membership  
since 1945, and an even greater loss among the  
Negroes.

We are still drifting on work policies.

There is a lack of confidence in the leadership.  
I doubt that we can overcome bureaucracy.

We borrowed and built into the Party structure  
the structure of Bolshevik bureaucracy.

We need to change type of organization to  
correspond to Party that seeks peaceful  
transition to Socialism.

There should be a change of structure and  
a change of name.

Remarks of WILLIAM  
SCHNEIDERMAN

The problems of organization are general throughout  
the country.

The National Committee must take hand in discussions  
if not to be forced to adopt wrong popular  
conclusions.

DE 100-2050

Membership questions whether the Party, especially leaders, can change.

Question of "military discipline" and seek elaboration of "right of dissent."

California Discussions.

Direct representation to county level.

Delegated bodies to be politically responsible and leaders accountable to them.

Abolish cooptation.

Regular commissions and conferences.

Bill of Rights for membership in Constitution including non-conformity in actions.

No expulsions except for acts against the Party and the working class.

Guarantee automatic appeal.

Recall of leaders.

Referendum on major policies.

Restore some features of the 1938 constitution.

Inform the membership of different points of view in the leadership.

Practice frequent review of experience with policies.

Simplify club agendas, to be decided by club, and include Good and Welfare.

Make it obligatory leadership listen to proposals.

Nominations for top leadership to begin during discussion periods - to learn who candidates are and their record.

We should start now with necessary organizational changes to institute democratic practices.

Delegated bodies.

Start discussions in search for leadership.

Inform the Party that constitutional commission wants proposals.

DE 100-2050

Non-Party Views:

Dissolve the Party.

Later help form new Marxist Party.

Question of Trade Union association of pro-socialist workers.

The California District is not for the present dissolution of industrial clubs.

Does this create faction attitude and isolate membership in Trade Unions?

Can they bring socialist ideology to workers?

Professional revolutionary vulgarized equals fulltimer.

Remarks of

b6  
b7C

A crisis exists in the Party.

Bureaucracy has been a fact since Party's inception.

It was built into principles of Party organization.

We should preserve shop and industrial clubs.

Remarks of MORRIS CHILDS

The organization situation corresponds to the political situation and practices.

We must change the Party's organization structure in line with the kind of Socialist Party we envision in the future.

Comments of ED STRONG

We need a more basic analysis.

What is real status of Party organization? Crisis?

What is origin of bureaucracy in the Party?

Can a blueprint answer organizational structure?

DE 100-2050

Remarks of JOHN GATES

The self-critical remarks of GENE DENNIS are beneficial. The CP is not, through; has many assets, but must change character to survive in new conditions. How can we have democracy in the Party when the Party is illegal? We must struggle for democracy in America, but there is a need to start to end our own illegality by organization changes. (Name; structure; delete Marxist-Leninism from constitution; and democratic centralism concept).

Some unionists want a socialist organization of their own.

Role of people like WINDT - BOB T.  
Should canvass possibilities  
interest in work around Labors' Daily.  
We must not end the "Daily Worker" before the convention, if at all, due to danger of present disintegration tendencies.

Remarks of

b6  
b7C

We need an analysis of our role re Trade Unions, especially organization relations.  
(review "resent and reject" CIO res.)  
Shop clubs will continue but need to change content of work to include community.

Political leadership need not be fulltimers.  
(should employ service workers if needed).  
Organizational controls required.  
Decisions should be binding.  
Changes in policy should not be made except by convention.  
Organizations at lower levels should be enabled to initiate proposals.

DE 100-2050

We need to strengthen explanations on National Committee stands.

Exaggeration of war danger.

Concept of peaceful transition and new Party.

Remarks of MAX WEISS

Crisis in the Party means irreconcilable trends.

Example: Crisis re Tito in world movement.

China and other CPs were moving in the same direction as Tito and would continue.

We don't have such a situation in our Party with Left Sectarian trends or any others.

The difference between social democracy and CPs is based on difference between eras of II International and III International.

A new era now requires new type of Party.

Mass Party of Socialism in the United States requires uniting Socialism with the Labor Movement;

Meanwhile, the CP needs to develop its own program.

New developments beyond Marxism-Leninism are necessities on basis of a new era.

Remarks of BEN DAVIS, JR.

The report should have given more attention to the problems of the Negro cadre and membership.

Concluding Remarks of

We have been in a crisis for the last five years. Attempted to break out with the 1952 resolution and 1954 program, and, GENE DENNIS' report vs. left sectarianism.

b6  
b7c

DE 100-2050

Now, the turn is stimulated by recognition of  
need for independent Marxist Party.  
This is a new feature of the struggle  
vs. Left Sectarianism.

Photographic copies of the above-quoted notes are located in Detroit

REPORTING OFFICE NEW YORK	OFFICE OF ORIGIN NEW YORK	DATE 10/19/56	INVESTIGATIVE PERIOD 7/1-10/15/56
TITLE OF CASE COMMUNIST PARTY, USA		REPORT MADE BY JOSEPH V. WATERS	TYPED BY bhd
		CHARACTER OF CASE INTERNAL SECURITY - C	

SYNOPSIS:

QUARTERLY PERIOD

July 1, 1956 to September 30, 1956

Communist Party (CP), USA, by press release dated 9/23/56 announced scheduling of its 16th National Convention for 2/11 to 14/57 in NY. Meeting of National Committee held 8/23 to 26/56 with Draft Resolution, proposals for National Convention, Platform Committee report on election matters, perspectives for "Daily Worker" and "Daily People's World" and work of National Committee, on agenda. Draft Resolution made public on 9/23/56 for debate prior to convention and expresses pride in CP struggles in past decade but notes heavy losses of CP. Resolution describes CP as not subject to external allegiance or discipline. Aim of Socialism by peaceful and constitutional means is restated; it claims no justification for liquidation of CP and opposition is expressed to its transformation into educational league. Informant advises CP income for first half of 1956 was \$56,031.97 with expenses totaling \$59,551.29; assets as of 6/30/56 were \$8,372.39 with liabilities of \$7,518.27. "Extreme security measures" viewed in Draft Resolution as one of three major mistakes of past decade, with most damaging effect on Party. EUGENE DENNIS at National Committee meeting

on 8/23/56 cautioned against forgetting problems of security under present conditions, and urged consideration of security under even more severe conditions. 1951 decision to go underground said to have not been majority decision of National Board. WILLIAM Z. FOSTER reported to have not been involved in decision, and has regarded decision as greatest error made by CP in past decade. Informant on 9/6/56 reported that only two basic alignments within CP National leadership now exist; one being headed by FOSTER and other by DENNIS. JOHN GATES and others who went too far to "right" have found it necessary to line up with DENNIS majority to deny FOSTER advantage of contending with two alignments. In Draft Resolution CP sees subsiding of war danger and growth of broad popular movements such as banning of atomic bomb tests; Party claims devotion to working class internationalism and solidarity; it admits to having viewed uncritically developments in USSR and other socialist countries, claiming belief any criticism would weaken international solidarity and comfort enemies of socialism. On resolution of CP SU explaining development of personality cult, CP USA issued statement in "Daily Worker" ("D W") of 7/29/56, expressing belief certain aspects of violations of Socialist law and principles would receive further study, among them happenings in Jewish sphere. "Pravda" in review of FOSTER book, described him as "noted theoretician" and Marxist historian." Editorial in "D W" of 7/6/56 charged U. S. State Department demand for agreement on Germany before disarmament is "sabotage of discussion let alone of actual disarmament." JOSEPH CLARK, writing in "D W" of 9/26/56, asserts Suez Canal settlement must recognize Egyptian sovereignty over Canal and right of all nations to pass, Israeli complaint of being barred not being allowed to obscure threats to peace created by West. ALBERT E. BLUMBERG at 8/26/56 session of National Committee meeting stated that as result of two major political conventions there were possibilities of gains on issues of peace, civil rights, and economic problems; prospects for labor and people's movement against Nixon; possibilities for fight against GOP-Dixiecrat alliance in Presidential election and in Congress and for labor to assert itself in independent political action. At National Conference on 9/29,30/56,

NY 100-4931

BLUMBERG and CLAUDE LIGHTFOOT stressed importance of mobilizing for election campaign, pointing out that CP, though small, could tip scales in some states and Congressional districts. Policy statement adopted by Conference announced withholding endorsement of any candidate. On 6/21/56 letter of CP USA "To All Districts" noted that issue of civil rights was pivotal in the struggle for 1956. Editorial in "D W" of 8/2/56 attacked Smith Act trials, claiming trial of GEORGE BLAKE CHARNEY, ALEXANDER TRACHTENBERG, and codefendants was sharp attack on Bill of Rights - the right to think and speak freely. People said to have major responsibility in fight for defense of Bill of Rights. Informant reports announcement at meeting held 7/11/56 that National Committee was setting New Steel Commission with aim of sending more CP members into steel mills to aid recruiting, influencing steel union, inaugurating movement for independent labor party and making those members now in steel a center of base in AFL - CIO. Article in "The Worker", 8/12/56 reports SIMON W. GERSON statement that denial of Veteran's Disability Pension to [redacted] will be appealed. At 8/23/56 session National Committee meeting, MAX WEISS said there should be more serious handling of mistakes on Negro question since there is gulf between Negro and white comrades because of downgrading of Negro cadre. DENNIS remarked future of CP is bound up with working class and Negro people. Speaker at National Board meeting on 9/25/56 announced proposal of liquidation of LYL was to be made at LYL National Council meeting on week-end of 10/6/56, and referred to this as crisis of tactics and leadership. Writing to Republican and Democratic Platform Committees to include matters of special concern to women urged by "The Worker" of 7/29/56. On 8/6/56, [redacted] was reported to have asserted that complete cessation of CP activity on farm front had occurred. Article in "D W" of 8/19/56 notes TV showing of old anti-Nazi films, declaring that these were made in mid-1940's when it was possible to work in Hollywood and have independent opinions. [redacted] "Morning Freiheit" National Manager, at meeting on 7/25/56 admitted execution of many Jewish writers in USSR

but said leaders and writers of every other group were also executed; however, now USSR is engaged in campaign to eliminate any sign of anti-Semitism. "Masses and Mainstream" name changed to "Mainstream" with 9/56 issue was less unwieldy and less puzzling to new readers and subscribers. Draft Resolution calls for financing and solving distribution problems of "The Worker" and "Daily Worker".

C O P Y

On 10/5/56 I attended a meeting held at the Jefferson School of Social Science, NYC. The meeting was in Town Hall on the second floor and commenced at 8:25 p.m. Approximately 200 people were present, and the speakers said it was the smallest crowd they ever had. Approximately five Negroes were present. The topic for discussion was "The Views of the CP's New Draft Resolution."

There were four speakers at the meeting. I did not get the first speaker's name, who also acted as the chairman. The other speakers were JOHN MC MANUS, JOSEPH STAROBIN, and [REDACTED]

MC MANUS spoke and stated in substance that most of the Communist Party is dissolved and there are not many more members. He said there were many different opinions as to what should be done by the Communist Party. [REDACTED] said he had been in the CP for the past 25 years. CP reached its strength in 1936. However, in the past 10 years the CP has been falling apart.

All four speakers spoke on the same topic and expressed the same opinions concerning the draft resolution.

b6  
b7c

In connection with the draft resolution they said they, the CP, must put it into politics. That is, to work on the Liberal Party and the Socialist Party and other socialistic organizations. One speaker stated he believed Moscow was having similar trouble as the American CP. He said they have no communications with Moscow. I do not recall the speaker's name.

MC MANUS talked from 8:25 p.m. to 8:50 p.m.

[REDACTED] talked from 8:50 p.m. to 9:15 p.m.

The other speakers spoke about same length of time.

C O P Y

CONFIDENTIAL - 80038-1132

C O P Y

Each speaker spoke mostly of getting the CP back on its feet. My opinion is that they are trying to reorganize. From the expressions of those people present I came to the conclusion that most of them had been CP members or were interested in being a member.

One speaker said the Communist Party is interested in the treatment of the Negro in the South and also the welfare of the working man.

All speakers spoke on the economic situation in this country as it affects the working man. They, more or less, said a socialistic form of government would benefit America.

No mention was made to the Federal government in any way.

Most everything they spoke on was mentioned in the catalog of the Jeff. School. That is, the courses that are offered by the school.

The meeting broke up at 11:00 p.m. sharp.

I did not recognize any one who was at the meeting.

They spoke of peaceful coexistence and wanted an end to the cold war.

After the meeting, I bought the following literature in the bookshop on the first floor:

- 1- The Draft Resolution for the 16th National Convention of the Communist Party, USA, - A Political Affairs Pamphlet
- 1 - The American Socialist
- 2 - Fall 1956 Catalogs - Jefferson School of Social Science

C O P Y

C O P Y

- 1 - Pamphlet titled - "Lifeitselfmanship"
- 1 - The Negro People on the March
- 1 - Magazine - Liberation

Outside of the building I was handed a copy of the newspaper, "Labor Action" on the way in to the meeting.

I have read the above  $5\frac{1}{4}$  pages and they are true and correct to the best of my knowledge and recollection.

[redacted]

[redacted] stated that on Tuesday, September 25, 1956, that he had been in the city of New York and that he had discussions with some comrades on the draft resolution of the Communist Party. [redacted] explained various phases of the resolution to the writer. [redacted] was in agreement with the basic issues, but not the draft in entirety. [redacted] explained to the writer that certain trends toward decentralization of unlimited leadership should be supported. [redacted] related that in the past too many comrades were willing to accept whatever the party leadership handed down just because it came from the leadership. That many mistakes could have been avoided had the comrades amended the suggestions of the leadership. A DFL related to the writer several cases of comrades who were far sighted enough to see what was happening but were expelled from the Party because of this. [redacted] said that it was our job to see that this could not happen again. [redacted] pointed to [redacted] case, PHIL FRANKFELDT's case as examples of individuals being "scarred" because of the wrong policies of the party leadership.

b6  
b7C  
b7D

[redacted] also explained why so much emphasis was being placed on the term "American Communist Party." [redacted] explained that in the past that the Party was patterning its policies on the sayso of not only the leadership, but on the basis of what the Soviet Union was doing along with other countries' activities and policies not realizing that what was good for French, Italian, German, Russian and English workers was not applicable to American workers. [redacted] said that what it all boiled down to was the fact that the American Communist party would make its own policies and develop its own tactics and presentations. [redacted] said that this did not mean that the American Communist Party would break its international alliance with European and Asiatic Communist Parties, but that on domestic issues we would operate independently, but on the issue of world Socialism we would continue to be part of the world group.

[redacted] then discussed the recruiting phase of Party activity. [redacted] explained that while the American Communist Party was smaller today and somewhat more isolated than in previous years that our influence could not be underestimated because

[redacted]

today every party member's only aim is to establish Socialism in America. [redacted] stated that when our membership was large and we recruited freely that a lot of party members were recruited on particular interests such as civil rights, veterans' rights, unemployment, hunger, dispossessions, price controls, unions, etc., and did not have a clear picture of the all embracing Communist goal of the overpowering of the capitalist system and its subsequent Socialist order. [redacted] said that future recruiting would only be directed to establishing every party member as a true socialist thinker. [redacted] informed the writer that the entire party structure would be modified in order to get our message to the American people in an entirely American way right down to the language that we used. When this was done [redacted] explained that the international aspect of the Party would work out because of the new found maturity and socialist education of the masses. [redacted] then set the date for our next Communist Party meeting for Friday, October 5, 1956 at 100 p.m., the place at the Arundel on Gay and Washington Sts. [redacted] stated that GEORGE MYERS would attend this meeting. The writer paid IRV \$1.30 for two "P.A.'s" and two "Masses and Mainstreams." The writer also gave IRV \$10.00 for dues for the month of June, August and September. The writer was exonerated from July dues because of the steel strike. The writer dropped [redacted] off on the east side of the 27th St. bridge at 3:16 p.m."

b6  
b7C

This memorandum has been compared with the original and is found to be accurate in substance.

For the information of the New York office [redacted] (NY file 100-102994) is District [redacted] for CP USA, Dist. #4.

Also for the information of New York, the facts furnished in the foregoing written report appear to bear on National CP Policy in Organization, Membership, Strategy in Industry and International Relations.

Re Cleveland letter dated September 7, 1956, captioned "Communist Party, USA, District No. 6, Internal Security - C"

For the information of New York and Chicago, this letter, among other things, enclosed two photographs of applications for membership in the Communist Party under the names of [redacted] residing in Cleveland. These cards are dated July 14, 1956.

b6  
b7c

These are the first membership application blanks furnished to the Bureau since the Party abandoned the use of the cards in 1948. A close examination of these cards indicates that they are identical with the type of membership applications used by the Party in 1948. The dues rates contained on the card are the old rates. In addition, there is attached the same type of subscription requests for "The Worker" showing the old address of this publication together with the old subscription rates.

Cleveland, through logical sources, should attempt to discreetly determine if the use of these cards was only an expedient measure or if there is a possibility that the Communist Party has again sanctioned the use of such application blanks. For the information of Cleveland, Bureau files contain no information identifiable with Irene White or Ona Mae Wilson.

New York and Chicago should, during the course of their contact with NY 694-S and CG 5824-S, discreetly ascertain if there is any indication that the Party intends to use application blanks once again to record potential or actual membership in the Party.

It is noted that with the exception of Nassau County your office does not possess current information upon which an estimated Communist Party membership could be established for ten counties.

In conjunction with the current intensified investigation being given to Communist Party membership in your area, you are instructed to include in the bimonthly tabulation of Communist Party members identified a breakdown to include the outlying counties and Long Island as well as the Boroughs of Manhattan, Bronx, Kings and Queens. It is equally important to develop the identities of the Communist Party members in the outlying areas as well as those in the city limits. The Bureau will follow you closely to insure that proper attention is being given to this phase of your program.

advised on 9/27/56, that the Queens County CP is not using application blanks at the present time. The last time blanks of this type were used by the Queens CP was in approximately 1948.

The only "blank" that could be attributed to a CP applicant would be a receipt that the applicant might receive from a membership director upon payment of a \$.50 initiation fee. This receipt is not mandatory and probably most membership directors do not bother to give one to the applicant.

The informant advised there is no mass recruiting in the CP going on and each new member is handled on an individual basis by the club or by the section membership director.

CG 5824-S\* orally advised SA JOHN E. KEATING on October 29, 1956, that at a meeting of the District Committee of the Illinois-Indiana Communist Party District on October 28, 1956, EUGENE DENNIS cited the following Communist Party membership figures in round numbers:

National membership is 20,000. In general, 50% of the members are also members of trade unions; however, this percentage is 40% in the New York District. Sixty percent of the members are in some mass organization exclusive of trade unions.

The New York District membership is between 9,500 and 10,000. The California District membership is between 2,900 and 3,000. The New Jersey District membership is 700. The Ohio District membership is between

650 and 700. The Eastern Pennsylvania District membership is between 550 and 650. The Michigan District membership is between 300 and 350. The Western Pennsylvania District membership is between 150 and 175.

CG 5824-S\* stated that in his opinion the membership figures for these districts as cited by [redacted] at a National Board meeting are more accurate than the figures given by DENNIS. CG 5824-S\* stated that his opinion is based on the fact that DENNIS was not citing exact figures but round numbers. Furthermore, there could be a political basis for these figures. The national leadership fears the New York District, since it may be able to dominate the National Convention because of its numerical superiority. Because of this, there may be some juggling of membership figures in an effort to reduce the representation of the New York District at the National Convention to less than 50% of the total representation.

CG 5824-S also commented that it is probable that representation at the National Convention will be based on membership figures determined by dividing the number of dues payments in 1956 by twelve. Through the device of having members make payments of dues in advance, a District would be able to increase its representation. Therefore, membership figures based on dues payments will not give an accurate picture of the membership in a District. Accurate membership figures can be obtained only when the Communist Party conducts an actual registration.

Report

Communist Party U.S.A.  
Activities

Oct. 9, 1956  
New York.

A meeting of the Communist party club of the north-west Bronx Section was held on October 2nd, 1956 at 85 Strong St., Bronx, N.Y. at the apart. of [redacted] (45A).

Present at the meeting were: [redacted]

[redacted] chaired the meeting.

b6  
b7c

The first question on the agenda was "aid to the Daily Worker."

[redacted] explained the "struggle of the Daily to continue its publication." She told the meeting that "most of the funds of last years fund drive of the party (C.P.) went to the Daily Worker. The money now being collected from the comrades the instalement payments on last years fund drive (a 10-month instalment plan which was adopted by the north-west section of the Bronx Communist party) goes entirely to the Daily Worker."

[redacted] said that "we must do everything possible to raise funds for the Daily Worker." She asked those present at this meeting to advance money "against collections we will make from our friends." For this purpose [redacted] donated \$10.00, [redacted] \$10.00, [redacted] \$7.00 and [redacted] \$12.00. There was a short discussion on the election campaign.

[redacted] complained that she does not know what to do in this election campaign; that up till now there were no instructions from the party on "how and for whom to vote."

[redacted] told the meeting that the section didn't receive instructions on the election. "The only thing that we know is that we got to work for the defeat of the Eisenhower cadilac government."

[ ] told the meeting that there was a national CP leadership meeting on the elections at the end of September and "I was told that the party (C.P.) took a 'neutral stand' on the present national election campaign, but the party wants to see the defeat of the present administration. It seems to me a kind of double talk. If the party is out to defeat the Eisenhower administration the party has to work for the election of the Democrats. How can a party that is neutral talk about or advise voters to defeat the present administration in Washington? You do or you don't, but if you are 'neutral' you just keep quite. It seemed to me, and I expressed this opinion to some party leaders downtown and they agreed with me, that our national (C.P.) leadership lost it's sense of orientation since the Khrushchev de-stalinization of the Communist parties. Rose is right claiming that she doesn't know what to do. [ ] is a section leader does she know what to do in this election campaign? I know that she doesn't know either. It seems that we hit a blank wall and this is definitely the fault of the leadership of the party."

b6  
b7c

The members agreed with [ ]. The "recommendation" on this point was that each one of the club members should work "as individuals through democrat party organizations, wherever possible, for the election of the Democrat party's national ticket."

[ ] raised the question of "bad attendance of meetings by club members."

[ ] proposed to visit every club member and explain the importance of attending club meetings.

[ ] explained that at the best attended meeting there never was more than 7-8 members. "I think that our club members do not attend our meetings because they are being bored at the meetings-they don't get what they want." [ ] proposed the reorganization of this club. He said that the section committee should make of 2 clubs one club; that larger club meetings will draw a larger attendance of club members.

[redacted] said that she likes this proposal and that she will take this question up at the first meeting of the section committee. She also underlined that it is important to draw in new members into the party. She said that the question of recruiting new members was discussed by the section committee and that she took up this question with the county (Bronx County C.P.), and that the county told her:

"Recruiting of new members for the party is desirable. That recruiting should be done on an individual basis-not as an all-party recruiting campaign-preferable in the heavy, basic industries, in the factories and shops and in the neighborhoods. Also to concentrate on getting back old party members who for one reason or another left the party."

[redacted] suggested that everyone should try to recruit a new member and that the section committee will try to make up a list of old former party members which will be visited by members of the section in the different neighborhoods.

b6  
b7c

[redacted] submitted the enclosed "resolution" for adoption by the club. After she read it Al suggested to give copies of this resolution to each member for the purpose of studying it and to discuss it at the next meeting of the club.

The meeting approved this suggestion. It was decided to hold the next meeting of the club at [redacted] apartment on October 16th, 1956.

[redacted] who has furnished reliable information in the past, made available the following information to SA [redacted] on December 3, 1956. Agent's notes taken during course of this contact are maintained permanently in Minneapolis file [redacted]

Informant learned on December 3, 1956, from [redacted] and [redacted] Chairman and [redacted] respectively of the Minnesota CP District, that the leadership in this CP area is taking definite and affirmative steps in attempting to obtain the maximum possible number of delegates this district will send to the National CP Convention, scheduled for February 2-12, 1957, in New York City.

b6  
b7C  
b7D

Informant advised that representation to the National Convention will be based upon the strength of current paid-up membership in each respective CP District as of January 1, 1957. To achieve the highest possible membership the leadership in this District has issued to certain Party members, CP dues membership kits with lists of names and addresses of persons who are to be contacted by January 1, 1957, for their 1956 CP membership dues. Informant advised the CP dues membership kits include: receipt books, score cards, envelopes, notebook, dues schedules and detailed instructions relative to CP dues collections.

Informant advised that the number of delegates to the National CP Convention from each CP District will be based on the following:

Referenced New York airtel contained information furnished by CG 5824-S\* on November 18, 1956, to SA JOHN E. KEATING, concerning the fifth and last day of sessions of the enlarged meeting of the National Committee of the Communist Party - USA, which was held in the Jefferson School of Social Science building, New York City, from November 13 through 17, 1956. The purpose of this letter is to disseminate information contained in referenced airtel. Because of the length of this five-day meeting, the informant's reports deal only with the more significant aspects of this meeting.

ISADORE WOFSY

CG 5824-S\* advised that [REDACTED] took notes during the meeting and ISADORE WOFSY acted as the security officer during the meeting. Informant also advised that WILLIAM Z. FOSTER, CLAUDE LIGHTFOOT and MICHAEL RUSSO left before the meeting was adjourned.

[REDACTED] and [REDACTED] were present for only a few minutes in the late afternoon. [REDACTED] was the Chairman for the entire day.

Continuation of the Discussion  
on the Draft Constitution

CG 5824-S\* advised that the morning session began with

CG 100-18953

a continuation of the discussion on the draft Constitution. The draft Constitution was adopted in general. There will be some changes made in the wording. It was decided to strike out any reference to the keeping of minutes of meetings so that no official record of meetings will be available. Instead of referring to minutes of National Committee meetings, the draft Constitution will refer to summaries of and reports on National Committee meetings so that it cannot be said that there are any official minutes in existence.

Article VIII will be amended to state that any person who advocates the use of force and violence will be expelled from the Party.

As an appendix to Article X there will be a list of books, articles and magazines, which have been used in trials and hearings against the Communist Party and Party members. The Constitution will state that the Communist Party does not assume responsibility for the contents of any item in this list. In other words, the Constitution will state that the Communist Party disowns these publications.

CG 5824-S\* advised that there was another debate on whether or not the term "Marxism-Leninism" should be included in the Preamble. WILLIAM Z. FOSTER made his usual motions in favor of the inclusion of this term. There was the usual lineup against him and the informant believes that the term "Marxism-Leninism" will not appear in the Preamble of the new Constitution. There was also a debate on the fact that democratic centralism as such does not appear in the Constitution. FOSTER wanted to have this term and an explanation of it in the Constitution; however, the informant believes that the Constitution will not be altered materially in this respect.

The last paragraph in Section 8 of Article V was deleted. This paragraph appeared in the old Constitution, and it was felt that the wording was too strong in giving blanket authority to the National Committee.

Members of the National Committee will be elected in two different ways. Approximately 75% of the National Committee will consist of persons who have been nominated by their Districts. The remainder will be members-at-large. All members of the National Committee will be elected at the National Convention. There will probably be some figure set on the number of Party

CG 100-18953

members a District must have before it can have a member on the National Committee, even though some objected that it would be undemocratic if each state did not have a representative on the National Committee. It is presently planned to have fifty or sixty members on the National Committee so that approximately fifteen or sixteen of this total could be members-at-large. The exact number will be set at the National Convention.

During this phase of the discussion, FRED FINE cited the following figures:

There are nine state organizations having under fifty members; there is one state organization with between fifty and one hundred members; there are seven state organizations with between one hundred and three hundred members; there are three state organizations with between three hundred to five hundred members; there are four state organizations with between five hundred and one thousand members; there are two state organizations with over one thousand members.

The term "Party functionary" will no longer be used and in its place the term "full time person" will be used. The number of these persons will be kept at an absolute minimum.

JOHN GATES made a motion to delete Article I from the Draft Constitution but this motion was voted down.

It was decided to attempt to introduce more democratic processes, but with an escape clause to prevent factions or cliques from removing officers. A three-fourths majority will be needed to remove members of any committee -- state, district or national.

Debate on Motions Proposed by  
FRED FINE on November 16, 1956

It will be recalled that on November 16, 1956, FRED FINE had made three motions based on his report which introduced the discussion on the draft Constitution. These motions dealt with the possibility of changing the name and form of the Communist Party, conducting surveys among "left wing" trade unionists and "left wing" elements in other mass organizations to determine their reaction to a possible change of name and form of the Communist Party. A proposal by MORRIS CHILDS postponing the discussion on FINE's motions was adopted on November 16, 1956.

CG 100-18953

These motions were discussed on November 17, 1956. There was a big debate and all of the motions were tabled until the next National Committee meeting. The supporters of the viewpoint of JOHN GATES also supported FRED FINE's motions. EUGENE DENNIS and representatives of Districts outside of New York were opposed to FINE's motions.

During this discussion EUGENE DENNIS went to the blackboard. He stated that while he is in favor of the theme of the Draft Resolution with regard to the organizational form, he would not be opposed to a survey of "left wingers" in the trade unions and the mass organizations to ascertain their views about a change in the name and form of the Communist Party. DENNIS stated that if it was determined that some of them would join an organization similar to the Communist Party but with a different name and a different form, then the Communist Party should consider taking one hundred or one thousand of its members and have them form an independent Socialist league as a basis for a broad organization to which the Communist Party might affiliate at some future date.

#### Statement on the Hungarian Situation

CG 5824-S\* advised that most of the rest of the meeting dealt with the second revised statement on the Hungarian situation. The committee of five which had been selected to revise the first draft statement worked until 5:00 A.M. on November 17, 1956, on the second revision. One photostatic copy of the second revision is enclosed herewith to the Bureau and New York Office. The Chicago copy is located in Chicago file 100-18961-1B (76).

Another big debate developed. FOSTER said that he was against the statement because it was not neutral on the use of Soviet troops in Hungary and, in fact, really endorses the attack against the use of Soviet troops in Hungary. DENNIS echoed the statements of FOSTER. DENNIS wanted the statement to say unconditionally that Soviet troops had to be used because there was a clear and present danger of fascism in Hungary and the imperialists would use Hungary as a military outpost. BEN DAVIS, JR., said that the statement is weighted against the use of Soviet troops in Hungary. He said that there was a tragic necessity for the use of Soviet troops in Hungary.

A majority of those present were in favor of having the statement contain stronger criticism of the National Committee statement and the "Daily Worker" editorial on the Hungarian

CG 100-18953

situation which appeared in the November 5, 1956, issue of the "Daily Worker".

CG 5824-S\* advised that the sharpness of the debate discouraged the five man committee which had twice revised the statement. They were in favor of having the National Committee say something on the Hungarian situation without tearing the Communist Party apart. On the other hand, most of those taking a pro-Soviet position were willing to make some concessions and even GATES was ready to accept some criticism for the "Daily Worker" editorial just to get a statement of some kind approved by the National Committee.

After practically everyone had talked themselves out on proposed changes of phrases here and there, FOSTER said to heck with the statement and gave his own statement to JOHN GATES for publication and then left the meeting. DENNIS wanted to completely justify the use of Soviet troops in Hungary. DAVIS, on the other hand, stated that while he did not completely agree with the statement, he thought that the National Committee should issue a statement so he would be willing to vote in favor of it.

A vote was taken and twenty-five persons voted for the general contents of the statement with the provision that it will be edited by the committee of five, will be released on Monday, November 19, 1956, for publication on Tuesday, November 20, 1956. FOSTER had left the meeting before the vote was taken and DENNIS abstained from voting. He said that he would not vote until he saw the edited version on November 20, 1956. He was asked when he was going to vote for something without qualifications and without waiting three or four days to see the reaction on a decision.

CG 5824-S\* commented that in a private discussion, [redacted] and MAX WEISS concluded that EUGENE DENNIS knows the temper of the membership and since he is uniting with FOSTER, he believes that the majority of the membership will support his position and that of FOSTER on the Hungarian situation.

JOHN GATES asked those present what he should do with FOSTER's statement, which fully endorses the use of Soviet troops in Hungary. It was decided that it should be published the day after the National Committee statement is published.

CG 100-18953

Motions

CG 5824-S\* advised that a formal motion was passed setting the dates of December 17 through 20, 1956, for the next National Committee meeting.

A motion was also passed authorizing a statement opposing the suppression of the Communist Party of Argentina.

BEN DAVIS, JR., and AL BLUMBERG were given the task of preparing a statement condemning the Democratic Party for punishing Representative ADAM CLAYTON POWELL for supporting President EISENHOWER in the election.

With the passing of these motions, this meeting of the National Committee adjourned.

Re: COMMUNIST PARTY, USA

Those offices which ordinarily include in their quarterly reports membership figures furnished by auxiliary offices must be given this data as expeditiously as possible in order that the Bureau deadline can be met. The airtel should contain the data usually incorporated under the membership caption in the quarterly report as well as explanations for any significant fluctuation in membership, where pertinent.

This does not change in any way the membership data to be contained in the quarterly CP, USA, reports for the period ending December 31, 1956. The airtel should be a more succinct duplication of the membership data that will be incorporated in the quarterly reports. It is extremely important that the figures contained in the airtels agree completely with those in the quarterly reports.

This additional requirement is for this quarterly period only and will not be required for subsequent periods unless advised by the Bureau.

On 12/10/56, NY 1743-S\*, having access to the records maintained by the National Office of the CP, USA, provided a copy of handwritten notes which appear to be a computation of the number of delegates to which each CP district will be entitled to send to the National Convention scheduled for February 9th to 12th, 1957, in NYC. *(copy attached to this memo)*

An examination of these notes discloses a membership figure for each of 25 districts, together with the number of delegates for each. The computation of the number of delegates coincides with the instructions contained in the "Call to 16th National Convention Communist Party, USA" permitting election of a. 2 delegates where the total membership is 50 or less; b. 3 delegates for the first 100 members and 3 for each additional 100 members up to 600; and c. 2 delegates for each additional 100 members above 600.

The membership figure is described as "Last reg."

A notation raised a question as to whether the Indiana membership was a part of the Illinois figure.

Another notation indicated that the computation of the NY delegate strength was computed on the basis of 8800 members rather than 9000. Another computation of the percentage of delegates from NY was made, resulting in a finding of 43%.

A Photostat of the notes is furnished the Bureau as an enclosure.

CC 100A-S\* made available to SA JOHN G. HANING for photostating on 12/16/56, an 11-page document dated 12/11/56. This document reflects that it is a statement of the position of the New York State Committee of the Communist Party with regard to the Draft Resolution. This statement reflects that it was adopted with the vote of 25 in favor and 6 against. This vote was taken at a meeting of the State Committee held on 12/3/56. One photostat of this item is enclosed herewith to the Bureau and to the Chicago Office.

This document admits that the Communist Party is in a serious crisis, that it is isolated from the labor movement and that it has committed left-sectarian mistakes. It advocates "the independence of Parties that apply Marxism-Leninism to their own countries"; the abolition of the concepts of democratic centralism and monolithic unity; the seeking of joint activity with other socialist trends in the nation; a new broader party of socialism or a "united party of socialism"; a change in the name of the Communist Party and the transformation of the Party into a non-Party political action association.

[redacted] also stated that he believes that the FOSTER-DENNIS forces in the New York CP District will be united for both the New York District and National Conventions. [redacted] also stated that he believes that a number of persons will quit the Communist Party after the National Convention since they will be dissatisfied if either the FOSTER-DENNIS or the GATES forces take control of the Party.

The text of the informant's statement is as follows:

"December 19, 1956

"The writer went to New York City Dec. 14, 15, 16, 1956. He contacted and conversed with several members or former members of the Communist Party of the U.S.A.

"He was sent a letter and also a notification by [REDACTED] of [REDACTED] Brooklyn, N.Y., informing him that the 'The Seamen's Defense Fund' was having a victory dance, celebrating their receiving permission to sail again. [REDACTED] is a former C.P. member.

"Here is an account of the people he met and what they said.

"He met a [REDACTED] a former seaman and also a member of the C.P. from 1942-1948, when the writer knew him. [REDACTED] is unmarried, not employed, and he intends to return to sea life. He also said that the 'Defense Fund' is going to take further action to remove writing from their seamen's papers, placed there by the U.S. Coast Guard, which states that their papers had been revoked but was being returned to them. (These are not the exact words, but the approximate meaning.) The writer met a fellow named [REDACTED] who years ago in the 30's or 40's had been expelled from the Communist Party. He was accused of Trotskyite practices (excessively left). He is not sailing now, nor is he connected with the Party now.

"The writer met BERTHA McGOWAN (not certain if correct spelling). He knew her as a very active member of the Party during and after the 2nd World War. She at present is not active in the Party; due to the unstable conditions of the Party. She was greatly affected by the 'Stalin Dictator Exposé,' and she has not been active since after that time. He does not know if she is a member of the 'party' at this time. She is interested in Communist activities.

"The writer met [REDACTED] who was a very active C.P. member of the Seamen's Unit in Baltimore during and after

"World War II. He was expelled from the Party, by PHIL FRANKFELD in Balto., about 3 or 4 years ago, for disagreeing with FRANKFELD's methods of doing things. He now has a good position with some kind of printing or advertising concern in New York. He told the writer that the Party had the wrong approach to thinking in the U.S. Example - if a person had a white collar, or good position he was considerably looked down upon. He said he is now enjoying his life better than ever before, and has no intention of joining the Party. He may still read the Worker. He gave me a person to contact in Balto.,  to get the Daily Worker. The author will contact her for the paper, and see what develops from there.

"The most unusual encounter the author had was with AL LANNON, who was the National leader of the C.P. seamen for many years. He was released from prison a few months ago. He is doing painting now. He said that people don't believe it, but the best thing that occurred to him in many years was the two years he spent in prison. His health has greatly improved, and he seems to be better adjusted. For he said when he came out of prison his wife told him no more of that rat race, he is finished. And he agreed with her. LANNON and I were very close and I asked him what is the situation in the Party now. He replied there is no Party now. Just a few paid functionaries, and they are a bunch of damn fools. I asked him, where were they getting the money to be paid and he said that's what he would like to know.

"He said this is the first time he is working since 1937, other than 'B.S.' party work, and he enjoys this life wonderfully. He said he is now 49 yrs. old, and he is finished with that 'crap'.

"I asked him if he goes to Party meetings and he said occasionally and then only to spit at them and he spat. He said he had a bit of difficulty holding a job because of his former activity, but he was now getting some work as a painter. His wife and son are also working. We are going to write to each other.

"Anyone who had known LANNON's full activity in the past

[Redacted]

"and seeing how he has changed to this extent, would give an idea in the writer's opinion how the Party has deteriorated today.

"The writer saw about a dozen former party associates, and to the ones with whom he spoke, none spoke well for the Party, in fact, none of them intend to be connected with the Party in the foreseeable future (and don't forget these people were real active old timers..) I don't recall all these people's names at this time."

AIRTEL

MINNEAPOLIS (100-1878-V-325)

DIRECTOR, FBI (100-3-68)

COMMUNIST PARTY, USA MEMBERSHIP  
 INTERNAL SECURITY - C

Re New York airtel to the Director dated December 13, 1956, setting forth membership figures for each of the twenty-five Communist Party Districts along with computations apparently designating the number of delegates each District will have for the forthcoming National Convention.

It is suggested that these registration figures represent the 1955 registration as reported to the National Office by the various districts rather than a 1956 figure. Reference is made to the Chicago letter to the Director, captioned as above with copies to New York, dated May 23, 1956, reflecting information written on a slip of paper obtained by CG 5824-S from PHIL BART, National Organization Commission member, Communist Party, USA in May, 1956. This information on the slip of paper dealt with dues and registration and contained the following pertinent information:

" 155 CLAIMED REGISTRATION

Minnesota	284
Wisconsin	145
Indiana	83
Missouri	59"

These 1955 claimed registration figures agree exactly with the membership figures shown for these four states in referenced New York airtel.
